N. W. Cor. Seventh and Jule Streets,
ST. JOSEPH, — MISSOURI.

The Thirteenth Annual Session will begin October 1, 1889, and will continue five months. During the course there will be from four to five didactic lectures delivered daily, at the College. One hour each day will be devoted to a clinical lecture, and two entire afternoons in the week will be devoted to Hospital and Dispensary clinics. Thus it will be seen that at this College there is a systematic blending of the theoretical and practical so that the student is enabled to combine the principles with the practice to the best possible advantage. Women are admitted on equal terms with men. Hospital, 250 beds just, completed.

Canton Surgical and Dental Chair Co., 62 and 64 East Seventh Street, CANTON, OHIO.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7.

It is not intended for the physician to master these, but to obtain some practical ideas of them. Men may deal practically with potatoes knowing nothing of their botany, and yet be good farmers. So may it be with the botany of disease. Medical practitioners can know enough to detect and destroy the parasites found in syphilis and consumption. Thus they will be qualified to express opinions as to the value of the microscope as a tool of precision in the diagnosis and treatment of these diseases.

TEXT-BOOKS.—Micrographic Dictionary. *Griffith & Henfrey*. Primer of the Clinical Microscope, and The Clinical Morphologies of the Blood, Sputum, Fæces, Skin, Urine, Vomitus, Foods, Clothing, Vaginal Discharges and Soils.—*Cutter*.

ELIXIR SALICYLATE OF SODIUM COMPOUND. See Page 1251.

HOTEL DIEU.

THE INFIRMARY OF THE SISTERS OF CHARITY,
NEW ORLEANS, LA.

FOUNDED IN 1859.

Situated on Tulane Avenue, between Bertrand and Johnson.

The Canal and Common Street Cars pass in front of the door.

The Hotel Dieu is a private hospital or infirmary, under the care of the Sisters of Charity. The rooms are comfortably and neatly furnished, and patients live as privately as they desire. Meals are served in the rooms without extra charge. The wards for men, and also those for women, are large and well ventilated, offering comfortable accommodations, at a moderate cost, to persons occupying the same room. Meals to ward patients are served separately.

The building has recently been thoroughly repaired, and the household furniture entirely renovated. To the sick and injured are offered the conveniences of a modern hospital; to the incurable and infirm, a comfortable home. The institution is under the general management of the Sisters of Charity, and the inmates under their special care and protection. The Physician in Charge visits the house twice daily, morning and afternoon.

TERMS:—Private Rooms, per day, \$2.50 to \$5.00; Beds in Wards, \$1.00 to \$1.50 per day. These terms include board and lodging, nursing, medicines, etc., and the attendance of the Physician-in-Charge (except in the more important surgical cases). Patients, at their own expense, may employ any other physician of good standing.

For further information, address the Sister Superior, or the Physician-in-Charge, Hotel Dieu, New Orleans, La.

Send Patients needing Special Diet, Massage or Inunction to **The Jackson Sanatorium,** DANSVILLE, NEW YORK. See Page 11.

Dr. Laidlaw's Private Hospital

—) FOR (—

Chronic Non-Contagious Diseases,

137 West 41st Street, - NEW YORK.

ESTABLISHED, 1859.

DURING the last 30 years this Hospital has been maintained as a quiet and home-like retreat for the acceptance of patients afflicted with diseases incurable, except under the immediate and daily supervision of a medical expert.

At any time during their residence in this Hospital, patients remain free to consult the physician of their choice in person or by letter.

In general terms, no case will be received who, through any peculiarity, will disturb the quiet of the house, or who is likely, in any way, to interfere with the recovery of fellow sufferers.

All means known to the modern physician will be made available for the sick. All the help to be obtained in New York will be utilized to their advantage. As an invalid resort, this city is unsurpassed for the eminent standing of its physicians, the efficiency of its medical institutions, the salubrity of its situation, and the unlimited supply of all appliances necessary to the welfare and recovery of the afflicted.

The charges vary from \$26.00 to \$50.00 weekly, according to rooms selected, attendance, etc. These charges include board, fire, light, and the fees of the Hospital Physicians, and also those of the general bath nurses. The fees of Consulting Physicians, Surgeons and private nurses are not included in the above charges; they make their own charges and collect their own bills.

There are no extra charges for Chemical or Electrical Baths, or for the usual Hydropathic or Electropathic Treatment.

Turkish and Russian Baths are obtainable in neighboring establishments, and are paid for by the invalids who use them.

Experts in Galvanic Surgery, Massage and the Swedish Movement Cure are paid extra.

DR. ALEXANDER H. LAIDLAW,

Medical Director.

DR. GEORGE F. LAIDLAW,

Bush's Fluid Food BOVININE. The VITAL PRINCIPLES OF UNCOOKED BEEF CONCENTRATED. See Adv., p. 12

OUR HEALTHFUL HOME

Is pleasantly located on Reading Heights, in the Northern part of the beautiful City of Reading, Pa., with the advantages of City and Country, and only a few hours ride by rail from Washington, Baltimore, Wilmington, Harrisburg, Philadelphia, Pittsburg and New York. The above cut is a truthful picture of OUR HEALTHFUL HOME, the engraving having been made from a photograph taken of our building. The climate here is very fine, the air dry and invigorating, with pure soft spring water, splendid walks and drives, churches, schools, stores, banks and telegraph, all within ten minutes' walk of OUR HEALTHFUL HOME.

Our rooms are large, well ventilated and convenient. The halls, as well as the rooms, are kept nice and warm through fall, winter and spring. Great attention is paid in securing the *very best kind of food*, and in preparing it properly for the sick. We have *five kinds of sweet delicious bread*, and *fresh sweet creamery butter*. Only the *purest kinds of food* go on our table. Our methods of treatment comprehends the scientific use and application of water, electricity, nerve and muscular development, massage, hand manipulations, Swedish movements, electro-thermal treatment, with mental and physical rest and exercise as indicated in each individual case.

Under our plan of treatment we have been especially successful in healing diseases of the Lungs, Dyspepsia, Rheumatism, Gout, Dropsy, Paralysis, Diseases of the Liver, Constipation, Piles, Cutaneous Affections, Jaundice, Asthma, Hay Fever, Catarrh, Mercurial Poisonings, Diseases of the Blood, Spinal Irritations, and Nervous Debility.

We have devoted much of our time in the past 40 years to the study and treatment of the diseases peculiar to women. This study and practice has ripened into an experience possessed by few physicians in this country. The various uterine displacements known as Falling of the Womb, readily yield to our Physiological system of Spinal and Abdominal Muscular development. *Curvatures of Spine* also treated with perfect success.

With our great experience, a scientific and successful system of treatment, we can in a comparatively short time restore to healthful conditions all ordinary cases, and *cure* 99 invalids out of a hundred who are considered incurable under any other plan of treatment.

Our terms are from **\$7 to \$15 per week**, according to size and location of the rooms. If two or more persons occupy the same room, then \$7 to \$10 per week; all time less than one week, \$2 per day. This includes board, treatment, light, fuel and room. Each person on entering OUR HEALTHFUL HOME for treatment, will be charged a fee of \$5 for *Medical Examination*. Helpless invalids requiring extra attention will pay for the same at a reasonable rate. The above prices do not include surgical cases, nor extra medical treatment.

If advised, carriage will meet passengers on their arrival at the station.

We give our undivided attention to the sick under our care, and endeavor to throw about them all the comforts of life we can, to render them contented and happy during their stay with us. Send for Circulars, which give a truthful description of OUR HEALTHFUL HOME, what we have done in the way of healing the sick, and still doing. If, after reading our Circular through carefully, parties should wish further information in relation to our Sanitarium, they can easily secure the same by writing to and addressing

SANATORIUM

FOR THE

DISEASES OF WOMEN

DRS. MAURY & MITCHELL,

111 Court Street,

MEMPHIS, TENN.

This building has been erected especially as a Sanatorium for the treatment of the diseases of women. It has been constructed with great care and in accordance with the most approved principles of Sanitary science. Its equipment with all the appliances necessary for the treatment of disease, is complete. It is the endeavor of those in charge to make this a temporary home, as well as a place of rest, where invalids will find every comfort they may desire.

Physicians who wish to send patients away from home for the medical and surgical treatment necessary in this class of diseases, may feel confident that everything possible will be done here for their restoration to health.

For further information, DR. MAURY can be addressed at the Sanatorium.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7.

THE BEST ANTISEPTIC.

For Both Internal and External Use.

LISTERINE.

Formula.—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

Dose.—Internally: One teaspoonfull three or more times a day (as indicated), either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Physicians interested in LISTERINE will please send us their address, and receive by return mail our new and complete pamphlet of 40 quarto pages, embodying :

A TABULATED EXHIBIT of the action of LISTERINE upon inert Laboratory Compounds;

FULL AND EXHAUSTIVE REPORTS and clinical observations from all sources, confirming the utility of LISTERINE as a General Antiseptic for both internal and external use; and particularly

MICROSCOPIC OBSERVATIONS, showing the comparative value and availability of various antiseptics in the treatment of Diseases of the Oral Cavity, by W. D. MILLER, A. B., PH. D., D.D.S., Professor of Operative and Clinical Dentistry, University of Berlin, from whose deductions LISTERINE appears to be the most acceptable prophylactic for the care and preservation of the teeth.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA.

KIDNEY ALTERATIVE—ANTI-LITHIC.

Formula.—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended on in clinical practice.

Dose.—One or two teaspoonfuls four times a day (preferably between meals.)

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia, Albuminuria, and Vesical Irritations generally.

WE have had prepared for the use of Physicians Dietetic Notes, suggesting the articles of food to be allowed or prohibited in several of these diseases.

A neatly bound book of these Dietetic Notes, each note perforated for the convenience of Physicians in detaching and distributing to their patients. Mailed gratis upon request, together with our latest compilation of case reports and clinical observations, bearing upon the treatment of this class of diseases.

LAMBERT PHARMACAL COMPANY,
ST. LOUIS.

BRIGHT'S DISEASE.

DIETETIC NOTE.—A rigid milk diet has given good results in many cases.

Allowed.—Fish, sweet breads, sago, tapioca, macaroni, baked and stewed apples, prunes, etc.; spinach, celery, lettuce, etc., may be used in moderation in connection with a milk diet, without impairing its effect, and with great comfort and enjoyment to the patient.

Avoid.—Strong coffee and tea, alcoholic stimulants, soups and made dishes.

DR. JUSTIN HAYES'

Sanitary Home

WESTERN SPRINGS, ILLINOIS.

Wherever in Europe and in America waters impregnated with minerals have been discovered, there has immediately arisen a mushroom growth of Sanitariums, Health Resorts, etc., heralding to the world at large the health-giving properties of the water, the magnificent climate and scenery, the high and dry location of the buildings, with much more of a like nature to catch the eye and hold the understanding of the invalid. But in the majority of cases, these institutions assume the form of a summer resort or of a hospital—*i. e.*, devoted entirely to the wants of pleasure-seekers, or controlled by rigid laws of diet, etc.

Of an entirely different nature is Dr. Hayes' beautiful country home, equipped with every modern convenience for the cure of his present patients and those who may hereafter place themselves in his hands. Situated on the C., B. & Q. road, only 15 miles from Chicago, it is easy of access from all points. Built on high ground, in the midst of beautiful, rural scenery, the hospital is merged in the home. The Chalybeate Water, aided by the most scientific, medical and electrical appliances known to the profession, are administered by Dr. Hayes, who was in general practice 14 years near Cleveland, Ohio, and for several years of this time was physician and surgeon-in-chief to the Portage Co. Infirmary, and one year resident physician in the Ohio State Inebriate Asylum. In 1862 he removed to Chicago, where he established a Home for the treatment of non-contagious, nervous and chronic diseases, especially those peculiar to the female sex. His combined treatment insures to all a rapid return to health and strength where such return is practicable.

Ovarian and Fibroid Tumors of the Uterus are treated successfully. For those who cannot spare the time to go to Western Springs, Dr. Hayes has luxuriously appointed parlors at 240 Wabash Avenue, Chicago.

THE KREHBIEL CAPSULE IS THE BEST AND CHEAPEST. KALAMAZOO, MICHIGAN.

Duvall's Institute

—FOR—

DISEASES OF THE NERVOUS SYSTEM.

LOUISVILLE, KY.

DR. H. A. DUVALL desires to draw the attention of the Medical Profession to the fact that he has opened an establishment at 518 Second Street, in this city, for the reception and treatment of patients afflicted with disorders of the Nervous System. The Institute is fitted up with the latest and most approved apparatus for dealing with the various forms of nervous diseases by **Massage** and **Electricity**. These agents are no longer experimental; they have been tested in thousands of cases, and have received the highest endorsements from the leading men in the profession. To the impartial and intelligent physician it is hardly necessary to mention that Dr. Duvall has thus, at hand, means which can restore to health and usefulness, many chronic invalids who have dragged through years of suffering under ordinary therapeutic measures.

Massage and Electricity are invaluable remedies in the following classes of cases:

1. In Chronic Articular Rheumatism, Rheumatoid Arthritis, Myalgia, Sprains and Synovitis.
2. In Constipation, Atonic Dyspepsia, Chlorosis, Anæmia, and general diseases characterized by mal-nutrition.
3. In organic diseases of the nervous system, such as Paralysis, Locomotor Ataxia, etc.
4. In functional diseases of the nervous system, such as Hysteria, Chorea, etc. Brilliant results have been obtained in many of these otherwise unmanageable cases by the use of massage, electricity, forced feeding and absolute rest.
5. In that large class of chronic invalids and neurasthenic subjects, in whom no distinct disease can be diagnosed, and who can not be benefited, but are often injured, by medication.

Massage has hitherto been done by hand, but during the past few years, mechanical appliances have been devised and perfected which far surpass in their effects the results of manual massage. The whole apparatus, driven by an electric motor, may be seen at the Institute, and Dr. Duvall will be pleased to show it working at any time during his office hours. The treatment may be adapted with equal facility to the requirements of the most delicate woman, or most robust man; it effects a considerable saving of time; is very stimulating, and at the same time soothing, while the great majority of patients are permanently invigorated. The services of an experienced masseuse, who is also familiar with the use of electrical appliances in disease, have been secured for attendance on lady patients.

Dr. Duvall intends to conduct the Institute in strict accordance with the Code of Medical Ethics, and trusts the profession will support him in this endeavor.

For accommodation, terms, etc., apply to

MEDICAL and SURGICAL MEMOIRS :

CONTAINING

INVESTIGATIONS ON THE GEOGRAPHICAL DISTRIBUTION,
CAUSES, NATURE, RELATIONS AND TREATMENT

—OF—

VARIOUS DISEASES,

1855-1890.

By JOSEPH JONES, M. D.,

Professor of Chemistry and Clinical Medicine, Medical Department Tulane University of Louisiana; Visiting Physician of Charity Hospital, New Orleans, Louisiana.

VOLUME I.

The general and minute Anatomy, Physiology, Pathology and Diseases of the Nervous System; Introduction to Study of Diseases of the Nervous System; Historical Analysis of the Labors of Ancient and Modern Writers relating to the Anatomy and Physiology of the Nervous System; Investigations directed to the Determination of the Functions of the Cerebrum, Cerebellum, Medulla Oblongata, Spinal Cord, Moor, Sensitive and Trophic Ganglia and Nerves; Structure, Functions and Relations of the Sympathetic Nerves; Relations of the Cerebro-Spinal and Sympathetic Nervous System; Effect of Sections, Mechanical and Electrical Irritations, and of Pathological Lesions of the Cerebro-Spinal and Sympathetic Nervous System; Nature and Relations of the Muscular and Nervous Forces; Investigations on the Nature, Causes and Relations of Traumatic Tetanus, illustrated by Observations on the Various Diseases of the Nervous System, and by Experiments on Living Animals with certain poisons; table showing the age, sex, nature of injury, results and methods of treatment in four hundred and eighty (480) cases of Traumatic Tetanus; Observations on the Pathology and Treatment of Cerebro-Spinal Meningitis, and more especially as it appeared amongst the Confederate Army, 1861-1865; Diseases of the Lymphatic and Circulatory Systems, Kidneys and Liver; Nature and Treatment of Pneumonia; Diseases of the Osseous System; Medical Statistics of the Confederate Army, illustrated by 800 cases of disease, 400 physiological experiments, 95 analyses of the blood and urine, and 60 tables exhibiting the symptoms and mortality of diseases under different modes of treatment and in different climates. 1 Vol., 8 vo., 820 closely printed pages. Price, \$5.00 (Five Dollars).

VOLUME II.

Containing researches on the Origin and Effects of Endemic, Epidemic, Infectious and Contagious Diseases; Investigations on the Nature, Causes, Relations and Treatment of Malarial (paroxysmal) Fever, Intermittent, Remittent, Pernicious and Hæmorrhagic Malarial Fevers; Comparative Pathological Anatomy of Malarial, Typhoid and Yellow Fevers; Indigenous Remedies of the Southern States; Albinism in the Negro Race; Oriental Leprosy; Elephantiasis Græcorum, Elephant's Leg (Elephantiasis Arabum). The author has embraced in his work on Fevers, the original investigations and scientific researches of the past thirty years; he has endeavored to consolidate and arrange a vast mass of material which shall be of absolute and daily value to the practitioner and student of medicine. The work embraces 1,368 closely printed pages, the forms of type used being nonpareil, brevier and long primer. If the entire work were printed in the latter type, it would cover over two thousand pages. Whilst the paper is of superior quality for book work, it is so dense and compact when properly pressed and bound, that the volume does not present an unwieldy appearance, but that of a medium-sized volume. The work is profusely illustrated by about 140 elaborate engravings, executed especially for its illustration. Many of these engravings occupy the size of an entire page. The work is also illustrated by sixteen plates, the majority of which are colored. Price, \$6.50 (Six Dollars and Fifty Cents).

VOLUME III—In Two Parts.

PART I.

Endemic, Epidemic, Contagious and Infectious Diseases; Measures for their Prevention and Arrest; Malarial Fever, Yellow Fever, Typhoid Fever, Asiatic Cholera, Small Pox, Varioloid, Variola, Cow Pox, Vaccination, Spurious Vaccination, Measles, Scarlatina, Diphtheria, Phthisis, Pulmonales, Syphilis, Alcoholism; Theory and Practice of Quarantine Relations, of Drainage, Soil, Food, Water and Climate to Endemic, Epidemic, Contagious and Infectious Diseases; Application of Measures for the Exclusion and Arrest of Yellow Fever and Small Pox in the Mississippi Valley, illustrated by the Quarantine and Sanitary Operations of the Board of Health of the State of Louisiana during 1880, 1881, 1882 and 1883.

PART II.

Monographs illustrating the following subjects: Philosophical Principles of Education and their Scientific Application to the Development and Perfection of the Medical Profession; Vital Capacity of the Human Lungs in Health and Disease; Contribution to Teratology; General Medicine; Diseases of the Nervous System; Congenital and Acquired Insanity; Advancement in the Treatment of the Insane during the Nineteenth Century; Treatment of the Insane in Louisiana; Medical History of the Insane Asylum of the State of Louisiana, 1848-1889; the Relations of Quarantine to Commerce in the Valley of the Mississippi River; the use of Antipyretic Remedies in Febrile Diseases; Public and International Hygiene; Progress of the Discovery of Disinfectants and their Application for the Arrest of Contagion; a History of Maritime Hygiene as Applied by the Great Naval Powers. ILLUSTRATED BY EIGHT CHROMO-LITHOGRAPHIC PLATES, TWENTY-ONE MAPS AND CHARTS, TWENTY-TWO EXTENSIVE AND ELABORATE TABLES AND SEVENTEEN ENGRAVINGS. Two Volumes, 8 vo., 1,540 closely printed pages. Price, \$4.00 (Four Dollars) per Volume. Price \$8.00 for Part I and Part II, third volume.

COMBINATION ORDER.

Volumes 1 and 2,	\$10.00.
Volumes 1, 2 and 3 (Parts 1 and 2),	16.00.

Magnesia Citrogine.

An Agreeable Refrigerant and Laxative Warming to the Stomach and Bowels.

I am now making an "Improved" or "New Citrate of Magnesia," that I am soliciting the profession and public to use in place of the many so-called Citrates of Magnesia.

I have named it

MAGNESIA CITROGINE.

IN ORDER TO DISTINGUISH IT FROM THE OLD STYLE, WHICH I STILL MAKE.

Like in all solutions of genuine Magnesium Citrate, a precipitate will more or less rapidly form. Though the preparation be unsightly by reason of the precipitate, yet it is a never failing characteristic of all solutions of true Magnesium Citrate (see an article by R. G. Eccles, M. D., in *Pharmaceutical Record* of May 15, 1835), and is an unfailing guide to physicians and purchasers, as to the genuineness of the article purporting to be "Citrate of Magnesia." This article, **MAGNESIA CITROGINE**, strength U. S. P., 1880, is made of Citric Acid two parts and Carbonate of Magnesia one part, combined with carminative stimulants.

I offer it to you, to the profession, for trial and judgment, with the confidence you will find it a preparation you can prescribe with satisfaction to yourself and patient, and I assure you it shall be kept up to the standard.

Hoping you will decide **MAGNESIA CITROGINE** a *positive improvement* on the old style of "Citrate of Magnesia," and that you will freely order its use by your patients.

FACTS

All solutions purporting to be Citrate of Magnesia, that are perfectly clear, no precipitate—sediment—are either solutions of Tartaric Acid and Washing Soda, or are not of the required strength, not containing the full quantity of Citric Acid and Magnesia, as ordered by the U. S. Pharmacopœia of 1880, the standard of all honorable Pharmacists. Solutions of Citrate of Magnesia made the strength demanded by the U. S. Pharmacopœia, 1880, will *always* have more or less precipitate—sediment. Deduction of facts: USE JACKSON'S MAGNESIA CITROGINE. Manufactured by

A. C. JACKSON,

[Manufacturing Chemist and Pharmacist, 1621 Sassafras St., ERIE, PA.]

JACKSON'S NEURALGIALINE

(SIG. CAMPH. COMP.)

The Unparalleled, Unequaled Reliever of Pain for

NEURALGIA, TOOTHACHE, HEADACHE, EARACHE, Etc., Etc.

A MOST EXCELLENT REMEDY SCIENTIFICALLY PREPARED.

Caution is given to all to beware of imitations, or of any remedy bearing a similar name.

I would most respectfully call the attention of the "medical profession" to the merits of "NEURALGIALINE" (Sig. Camph. Comp), in combination with Tinct. Iodine as a resolute application for painful tumors, etc. Thus: R—Sig. Camph. Comp. (Jackson's)

Sig. Tinct Iodine..... aa ½ oz.
Apply to part as directed. M.

Neuralgialine is put up in 4, 8, 16 and 32 oz. bottles for physicians and hospital use. Neuralgialine is prepared only by

A. C. JACKSON,

Hayes Process of, and Apparatus for Generating and Administering Anæsthetics

PROCESS AND APPARATUS PATENTED.

No. 2. SURGEONS' PORTABLE CASE.

further, not only in its safety, but its efficiency, consists in having a water bath with heating power combined, by which the tendency to lower the temperature of the vapor by the continuous passage of the air through and over the narcotic, is not only counteracted, but by which an increase of the temperature of the vapor is obtained, so as to meet the ever-varying wants of the patient perfectly in the advancing stages of Anæsthesia.

2. In its desirable effects, being entirely pleasant in respiration and rather enticing than otherwise, non-irritating to the fauces, the epiglottis, the mucous membrane of the bronchial tubes, or the air cells of the lungs, and being free from producing nausea with the consequent fearful results of vomiting, asphyxia, syncope or death.

3. In its adaptation to a uniform evaporation of all the elements in any narcotic admixture.

4. In its cleanliness, being perfectly clean at all times and under all circumstances.

5. In its convenience, the narcotic chamber being always charged and ready for use, and the apparatus being suitably suspended with pulleys and weight, by which it is conveyed out of the surgeon's way when operating, or enclosed in a neat surgeons' portable case, for use out of office, which also contains three suitable bottles, one for the narcotic, and two for stimulants, which should always be convenient of access during a surgical operation.

6. In its cheapness, or the saving of the narcotic, and the consequent annoying effects of its waste in the operating room.

We commend this new "Process of Anæsthetics," with its appropriate Apparatus, to the Medical and Dental professions with the hope that as you value life and health above everything else, you will not endanger the health and the lives of your patients, nor throw yourselves liable to prosecution for mal-practice or criminal neglect, in the administration of an anæsthetic by the ordinary methods.

Hayes "Process of, and Apparatus for Generating and Applying Anæsthetics," is leased during the Life of the Patents (11 years) and sold for \$60.00. When License is issued, \$50 is to be paid, and balance (\$10) at expiration of Lease. Price of Surgeons' Neat, Portable Case, made of Morocco, \$7.00. Price of Hayes' Hypnotic, per lb. bottle, \$2.50.

Any Surgeon who has a large practice, requiring the use of an Anæsthetic, can save the cost of his outfit for this purpose in one year's time by the use of our Process and Apparatus, as he saves fully three-fourths of the narcotic he would use by any of the ordinary methods of administering ether or chloroform besides having all the other advantages which we claim for our Process.

The Generator (A) and Face Piece (B) are made of brass and nickel-plated, and are suspended on pulleys with screw, which are nickel-plated, and are to be attached to the ceiling. The whole Apparatus is made and finished in a style so as to be an ornament to any office. It is also made without pulleys and weight.

All orders must be accompanied with the money and directed to

Hayes Dental & Surgical Manufac'g Co.,

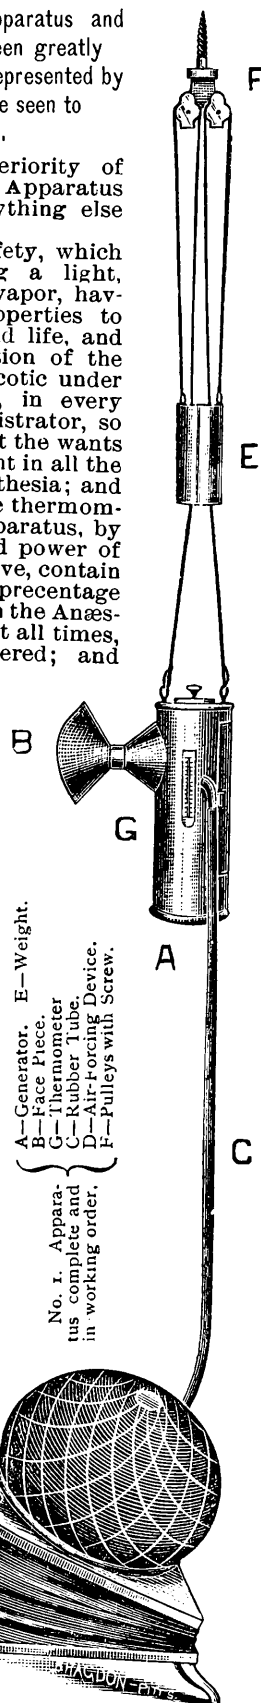

197 and 199 State St., CHICAGO, ILL.

Hayes' Hypnotic, ether, chloroform, or any other suitable narcotic, is used with his Process and Apparatus, and can be had of us, fresh.

Recently this Process, Apparatus and Surgeons' Case have been greatly IMPROVED, which is not represented by these Cuts, and must be seen to be appreciated.

The wonderful superiority of this new Process and Apparatus over and above everything else in use is manifest:

1. In its absolute safety, which consists in producing a light, agreeable, attenuated vapor, having the necessary properties to support respiration and life, and in putting the regulation of the percentage of the narcotic under the complete control, in every respect, of the administrator, so as to be adapted to meet the wants or needs of every patient in all the various stages of Anæsthesia; and also in having a reliable thermometer attached to the apparatus, by which the capacity and power of the atmosphere to receive, contain and convey a certain percentage of any given narcotic in the Anæsthetic, may be known at all times, while being administered; and

A—Generator. E—Weight.
B—Face Piece.
C—Thermometer
D—Rubber Tube.
E—Air-Forcing Device.
F—Pulleys with Screw.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7.

THE DR. VALENTINE ELECTROPATHIC MEDICAL -|- AND -|- SURGICAL -|- INSTITUTE

1332 Wabash Avenue,
CHICAGO, ILLINOIS.

(Established Over a Quarter of a Century.)

We respectfully call the attention of the Profession and our many Patients of the past, to the fact of having removed our institute to our residence, 1332 Wabash Avenue, in the heart of the city, convenient to all Street and Steam Railways. We have twenty-two large and pleasant rooms, where Patients will receive the attention of PHYSICIANS OF ACKNOWLEDGED ABILITY in charge of each department. Our Dispensary and Operating rooms are complete in all the latest and most approved Medical, Surgical and Electrical Appliances. The Nurses we employ are reliable and competent, and every effort will be made to make this, our new departure, merit the approbation of both physicians and patients.

We Treat all Classes of Acute, Chronic and Nervous Diseases.

This Institute is the largest, oldest and best equipped of its kind in the United States. It has been fitted up regardless of expense, and every attention required by patients can be met with. In our Electropathic Department alone, we have over \$4,000 worth of Medical Electric Batteries and Appliances. Each department is thoroughly supplied with Instruments for its particular branch. There are a class of patients who can be more successfully treated and cared for in an Institution of this kind, under the constant supervision of a Physician, and with the aid of means not otherwise at command, than at their own homes.

RUPTURE AND DEFORMITIES

Of all kinds are treated by us, and APPARATUS that is necessary made under our own supervision upon the premises. We still continue to manufacture

Medical Electric Batteries, Chairs and Appliances,

And Patients who are unable to visit our Institute can be successfully treated AT HOME AT A SMALL EXPENSE.

The department for the treatment of the Medical and Surgical Diseases of Women is complete in every particular. The best surgeons in Chicago operate in cases requiring their assistance.

SARA L. VALENTINE, M. D., and J. C. VALENTINE, M. D.,

Physicians and Surgeons-in-Charge.

NELSON'S CELEBRATED HEALTH DRINKS. HALVOR NELSON,

:- SOLE MANUFACTURER OF :-

Aerated

Sparkling

Champagne :- Cider

Crab-Apple :- Cider

“LOTUS,”

The Great Quaker Health Drink, and Extra Dry Champagne,
DETROIT, - - MICH.

Our Aerated Health Drinks are manufactured from pure fruit juices, very nutritious and beneficial to the *young and old*. *Non-Alcoholic, not carbonized, and free from chemicals*

“Lotus” is the great remedy for *Dyspepsia, Nervousness, Mental Exhaustion, Etc.*

Act instantaneously on the liver, kidneys and stomach, without griping or nausea.

The natural acid generated from fruit juices by our own process of manufacturing Aerated Drinks, acts on the food similar to the gastric juices which the stomach generates to convert what we eat to a condition capable of imparting nutriment to the system; hence it promotes digestion, expels the gas and gradually removes the various forms of disease of the stomach, duodenum and small intestines in which the natural process of digesting and assimilating the food is deranged.

All who suffer from Indigestion, Nervous or Sick Headache, Rheumatism, Lumbago, Liver or Kidney troubles, should give our Aerated Health Drinks a trial at their tables, as they will derive great benefit from their constant use.

While our Health Drinks contain no alcohol, they are stimulating, magnetic and superior to all alcoholic stimulants, which latter all persons suffering from dyspepsia, rheumatism or kidney troubles should avoid, as they are not needed in connection with our Health Drinks.

The manufacture of our Aerated Health Drinks, “Champagne Cider,” “Lotus” and “Para Champagne,” is the result of long study to relieve personal suffering of 23 years’ standing, and one year’s trial of their merits has demonstrated the fact that their constant use will benefit and assist or cause complete cures of various diseases arising from incomplete digestion. The perfection of our process of *natural* preservation of our goods (*without the aid of alcohol, carbonating, or use of chemicals*, which would destroy the magnetic and nutritious properties of our drinks, as well as their curative properties), enables us to offer our goods to the public at prices within the reach of everybody. We ask a fair and impartial trial by all physicians, who will find in our Health Drinks a handmaid in their practice, and feel assured that a drink restoring healthful activity to the system of those suffering from diseases will be a welcome assistance to their great profession. Please send for price lists, or give order for trial cases, to

A NEW ADJUSTABLE LAMP BRACKET.

Reprinted from The Journal of the American Medical Association.
By SETH S. BISHOP, M. D., of CHICAGO, ILL.

The accompanying cut illustrates the working of an adjustable lamp bracket I have designed for carrying lights, instruments, etc. It overcomes the difficulty of properly illuminating various parts from any desired direction and at any given angle. The lamp is easily adjustable to any point lying within a perpendicular line a foot and a half in length (from A to C) and it will swing through the arc of a circle, having a radius of three feet. It is supplied with joints, parallel arms and an extensible

lamp holder, in such a manner as to place the light (B) either within a few inches of any wall to which it is attached, or at any intermediate point in a horizontal, to a distance of three feet from the wall. It is so constructed that, in order to raise or lower the light, you need only to press the thumb and finger on the extension arm and brake beneath, so as to close them together; then set the lamp at the desired point; release the brake, and it sets automatically, holding the light wherever it is placed. These points will be appreciated by those who have to use light concentrators on the imperfect brackets now in use. The lamp-holder is prepared to receive an Argand burner connected with a flexible gas tube, so that the bracket may be attached to a wall or desk in any part of an office or house, and connected with the gas fixtures like an ordinary drop lamp. Or, where there is no gas, an oil lamp-holder (A) is screwed on instead of a gas-burner (B), and an oil lamp of large size may be used to obtain brilliant illumination. The bracket is very strong, and will support a weight of five pounds or more. Its utility is extended by substituting a tray (C) for the lamp receiver (A), so as to make it a convenient instrument-holder for surgeons and dentists alike. I have employed this bracket in my office a sufficient length of time to demonstrate its superiority over any other that I have been able to find after a most exhaustive search. The bracket is made of brass and is an elegant addition to any office, both as to utility and beauty. The nickel plated light concentrator (B) of my design, is made to use over any Argand chimney, and is much less expensive than any other in market. The bracket is fitted with an oil lamp in the holder (A) and a light concentrator when so ordered. For information concerning these articles, which are manufactured under the personal supervision of the inventor, address S. S. BISHOP, 70 State St., S. W. Cor. Randolph, CHICAGO, ILL.

GENEVA HYGIENIC INSTITUTE.

This Institution, having been in successful operation for thirty-two years, is located in Geneva, N. Y., adjoining a large park. The village, which is one of great beauty, is situated on the banks of Seneca Lake, and is surrounded by a country unsurpassed in richness and beauty, affording delightful drives, walks etc. Boating and fishing on the lake also furnishes pleasant and healthful exercise and recreation during the summer.

THE BUILDING.—Large additions have been made to the building, and the whole interior has been reconstructed and finished in natural woods; every apartment is heated with steam, and lighted with incandescent electric lights; thus fulfilling as far as possible every modern Hygienic condition. Each floor has bath rooms, water-closets, and hot and cold water.

MODE OF TREATMENT.—This comprehends an observance of every Hygienic condition, such as diet, clothing, proper care of the skin, exercise, sleep, ventilation of apartments, mental and moral influences, etc.

BATHING.—Beside the usual variety of baths, carefully regulated by daily attention to their effects, we make use of the Electro-Thermal, Galvano-Chemical and Turkish Baths. The Galvano-Chemical baths we find very effective in scrofula, and defective and perverted assimilation. We also employ locally the various forms of Electricity and Galvanism known to the profession.

A very important part of our treatment is the application of active and passive movements. The medical treatment is principally Homœopathic. The medical department is under the care of A. B. SMITH, M. D., and J. C. KNAPP, M. D. Dr. Smith, the founder of the Institution, has been in charge of it ever since its establishment, a period of thirty-two years.

RATES.—Board and treatment, from \$30 to \$17.00 per week. In the winter there will be an extra charge of fifty cents per week for heat. All letters should be addressed to

DR. SMITH, or DR. KNAPP, Geneva, N. Y.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7.

The Exanthematic Method of Cure.

(ALSO CALLED BAUNSCHEIDTISM.)

A Certain Cure for all Diseases.

In diseases of recent origin, as well as in chronic affections which have defied all salves, medicants and treatment, this method of cure may be confidently resorted to as the last anchor of salvation. Thousands of invalids, whom the doctors had given up as hopeless, have saved their lives and been restored to full health by means of this treatment. An account of the wonderful cures which have been brought about by this treatment, as also the necessary instructions for self-treatment for all diseases, is contained in my Book of Instructions, or Manual—15th Edition, 350 pages. Illustrated circulars sent to any address, postpaid.

JOHN LINDEN,

Special Practitioner of the Exanthematic Method of Cure.

LETTER BOX W. Residence, 948 Prospect St.,
Office, 391 Superior St., cor. Bond, **CLEVELAND, O.**

BEWARE OF COUNTERFEITERS AND FALSE PROPHETS.

FORT DODGE, Iowa, February 13th, 1889.

Mr. JOHN LINDEN:—Enclosed please find remittance for the Resuscitator and belongings which I received in good order. Your Resuscitators are undeniably *better* than Baunscheidt's, and your Oleum I tested against Baunscheidt's over twenty years ago, and found *yours far superior*, let alone the difference in price. With best regards, yours truly, REV. E. RIEDEL.

DENISON, Grayson Co., Texas, March 20th, 1889.

Mr. JOHN LINDEN: Dear Sir—Find enclosed \$5.00, for which send me of your Oleum. I received the new instrument from you some time ago. In all spinal affections your method of cure is *unsurpassed*. I have not failed in a single case and I am having good success in all cases that I could not handle successfully before. Respectfully, DR. O. E. BRITTAIN. Box 97.

THORP SPRINGS, Texas, Feb. 6th, 1889.

JOHN LINDEN: Dear Sir—Inclosed please find \$1.50 for which send me one bottle of your Oleum. My wife uses it for general weakness and heart affection. We find it splendid; it cures every time when the doctors and everything else fails. My wife would not take a thousand dollars for the Resuscitator and Oleum she has, if she could not get another. You can state to the public if you wish, as I am well known in Texas. Yours truly, REV. WM. HALE,

Thorp Springs, Hood Co., Texas.

BONDUEL, Wis., Feb. 13th, 1889.

Mr. JOHN LINDEN: Dear Sir—Please send four bottles of your Oleum as soon as possible by Express to F. Genzke, Shawano, Wis. We have used your medicine for over seven years and have found it a never-failing remedy for nearly every kind of sickness. Very respectfully, F. GENZKE.

The above testimonials were presented to us in the original.

MEDICAL DOSIMETRY

IS PRACTICED IN ST. LOUIS, MISSOURI,

BY DR. E. BENKENDORF,

1510 CRATIOT STREET.

This system of medicine does realize invariable success for those that try it. It is different from Allopathy and Homœopathy. It is as nearly mathematically correct as could be expected at the present day. It makes use of remedies as innocent as those of homœopathy, but they are more effective than those of allopathy, and they are never liable to injure the patient if dosimetrically used.

The definition of Dosimetry is the dose of the remedy appropriate to the degree of disease.

As to the selection of the remedy the dosimetric physician finds it well to consult the rules laid down by Dr. Burggraave, the founder of the dosimetric school. Without a strict adherence to the dosimetric teaching by Burggraave, any physician using dosimetric remedies, can only be called an alcaloidal therapist. The change brought about by Dr. Burggraave in the art of treating disease is radical and cannot be judged by the schools of the past.

The doctor has successfully practiced dosimetry since 1882, when he returned from a professional stay at Paris. Before that time he practiced allopathy in St. Louis for so long a time as to prove his adherence to the new school a matter of conviction.

NATIONAL UNION VACCINE CO.,

ESTABLISHED, 1870.
E. L. GRIFFIN, M. D., Pres.

INCORPORATED, 1884.
J. PETTET, A. M., M. D., Treas.

VACCINE FARM, ENGLEWOOD, ILL.

The largest, best equipped and most complete Vaccine stables on the continent, conducted under the immediate supervision of highly educated physicians and assistants, of many years practical experience in this specialty. All animals, after being used, are slaughtered and carefully examined for any indications of inoculable disease. During the past year this work has all been done under the immediate supervision of the United States Government, Department of Agriculture, and their skilled veterinarians, and in no case has any animal been found suffering from tuberculosis, nor any disease, which would render the vaccine unfit for common use, a fact which of itself speaks volumes for the care taken in selecting the animals used.

THIS IS THE ONLY VACCINE WHICH, SINCE 1876, HAS ALWAYS STOOD THE SEVERE TEST REQUIRED BY THE HEALTH DEPARTMENT OF CHICAGO.

ELECTRICAL MEDICATION

Teaches how to treat numerous acute and chronic diseases with electricity. It teaches how to control inflammation with electricity to a certainty, thereby saving lives, by using it in conjunction with medicines, that would perish or die without it. Thirty years' experience with medicines, eighteen years of the time a clinical experience with electricity, justifies the above assertions of the author.

REFERENCE REVIEWS.

J. J. Lawrence A. M., M. D., editor of *Medical Brief*, St. Louis, Mo., April, 1885, says: "Electrical Medication is worth many times the price asked for it. (Send for it.)"

J. S. Zerbe, editor *American Inventor*, March, 1884, says in conclusion of a review on Electrical Medication: "Dr. Tipton is to be congratulated for the successful manner in which he has presented the subject."

D. B. Goldsmith, M. D., Ramsey, Fayette Co., Ill., June, 1883: "I have read all the works of prominent electricians of Europe and the United States, but saw nothing based upon common sense and backed up by logical reasoning until I read your book."

Homœopathic News, St. Louis, April, 1882: "Physicians desiring to adopt the battery in their practice will find this a comprehensive and practical work."

American Medical Digest, New York, April, 1882: "From reading this work we are impressed with the author's true decipleship and his specific adaptation of electrical medicine to almost every malady to which man is heir."

Minnesota Medical Mirror, Cambridge City, April, 1882: "The very liberal and reasonable deductions of the author are convincing at once that he is not riding a hobby," etc.

American Medical Journal, St. Louis, Mo., April, 1882: "The subject of Electrical Medication is presented in a different manner from that to be found anywhere else. In this book we have a practice of medicine characterized by variety—electricity and all therapeutic agents employed by all branches of the profession."

E. O. NEIL, M. D., Member Royal College Physicians and Surgeons, England—See review in the work.

From the *G. E. Medical Journal*, Atlanta, Georgia, 1882 (conclusion of review): "Dr. Tipton has presented these subjects of Electrical Therapeutics in a manner that will not fail to interest every reader; nor has he made a humorous hobby out of it."

We could furnish any number of endorsements similar to the foregoing and following:

Dr. J. A. Dougherty, United States Medical Examiner for Pensions, says: "The work is worth its weight in gold; entirely unlike anything of the kind that I have read."

Upon receipt of \$3.00 I will mail the book to any address by return mail, post-paid.

After 60 days if you do not consider the work worth ten times the price asked for it, return the same and get your money less transportation.

THE AMERICAN COLLEGE OF ARTS AND SCIENCES
 OF THE STATE OF NEW YORK,
 120 PEARL STREET, BUFFALO, N. Y.

The instruction at this College and its co-operative regional Colleges, Universities, Academies and institutions of Learning, on the American continent, comprehends every department of learning for which the candidate desires a Diploma. Students of all professions or callings of distinction, can matriculate, and have instruction in any department at their home under a special instructor by appointment, or at any of our Institutions of Learning in the Western Hemisphere, and upon presentation of certificates of proficiency, will be entitled to degrees in their specialty.

GRADUATES OF OTHER COLLEGES, who desire a degree for any specialty, may obtain the same upon presentation of certificates of proficiency. Educated men and women (self-made), professors and practitioners in any department of the Arts and Sciences, will receive their degrees upon passing the required examination, under the laws, rules and regulations of the Institution.

REGIONAL PROFESSORS are appointed in every city, town and village on the American continent to examine candidates.

FEES.

Matriculation Ticket, \$5.00.

Full Course Ticket, in any department, including examination, \$50.00.

Special Examinations at Reasonable Charges.

No FEES are charged for Diploma; the imposition of such fees are repugnant to Druidic Law and Usage.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7.

Ferguson's Half Phaeton Cart No. 6.

THE PHYSICIANS' FAVORITE. THE FERGUSON HALF PHAETON CART, here presented, has points of excellence possessed by no other Road Cart. The manner of attaching the spring to the Cart so that the weight of the person occupying the seat comes directly over the spring, and the full weight on the axle, is an advantage possessed by no other Cart, and does away with the disagreeable "teetering motion" so common in carts where the spring is attached to the shafts.

TYPHOID FEVER. A Successful Treatment.
SEE PAGE 745.

SINCE 1876

—THE—

"M. & L. EMBALMING FLUID"

—HAS BEEN—

The Leading Preparation of its Class.

Modern embalming commenced to be a success with the advent of this preparation, and it has always succeeded in doing satisfactory work when properly used. It is now

In Constant Use by Over 5,000

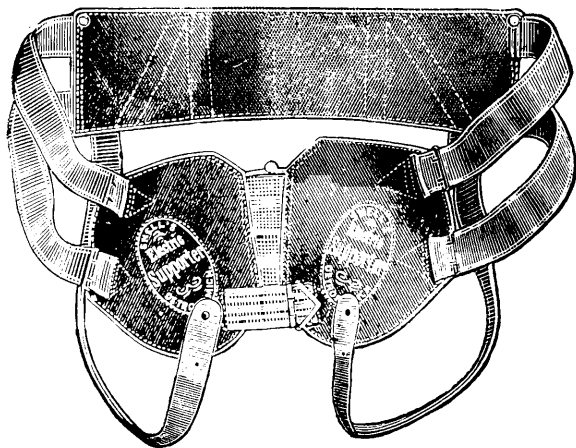

Of the most intelligent and progressive undertakers of the United States and the Canadas.

The "M. & L. Fluid" is a thorough preservative of flesh tissue; it bleaches out the discolorations of decomposition; it unfailingly destroys the foul odor of decomposing flesh and is a powerful germicide. Also, as a dressing for open cancers and foul wounds it has proved itself to be of great value.

PHYSICIANS AND SURGEONS

Are specially recommended to give this preparation a trial—its effectiveness will prove a surprise to many of them.

It can be obtained from any of the jobbers of undertakers' supplies, or from the manufacturers,
MILLS & LACEY MFG. CO.,
Grand Rapids, Mich.

**DR. SNELL'S
PERFECTION TRUSS**

—IS THE—

**Most Perfect, Sensible and
Scientific Truss Known.**

The new Spring Pad is set in an easy, adjustable belt, and securely holds the Hernia and effects a permanent cure.

Give size around hips and location of Rupture.

Snell's Abdominal Support

Is a double uterine supporter, having complete control of the organs, restoring them to their normal position

WITHOUT THE AID OF STEMS OR STRAPS,

The work being done by the aid of spring pads that act as by magic. Recommended and used by Dr. Hal C. Wyman, Dr. Andrews, Dr. D. Parker, Dr. G. Banks and all other M. D.'s who know them, Send for prices. Address:

DR. R. I. SNELL,

H. F. OSBORNE'S PAT. MEAT JUICE PRESS. NEWARK, N.J.

Address,

By the use of this Press a nourishment may be quickly obtained, free from every possible objection, provided the *expressed juice* is not warmed above the temperature of the body.

For Family and Physicians' use Size 3 is recommended; Nos. 1 and 2 serve for Children; Nos. 4 and 5 can be used for Tincture and Jelly Presses.

DIETETIC FALLACIES.

It is a mistake, often resulting in serious consequences, to suppose there is any nutriment in BEEF TEA made from extracts, or by any known method. Prof. Liebig declares there is none whatever.

A healthy man finds in hot soup a useful introductory to a meal; to a sick person beef tea has the same value, and *no other*; promoting the appetite, and stimulating the digestive functions. As a stimulant, beef tea has its use, but it contains nothing which will repair the waste of disease. Starvation will result from relying upon this *shadow* of the substance for nourishment.

Meat Juice is very sensitive to the action of heat. Its albumen coagulates at nearly 100° below the boiling point, hence it is safer not to warm it above the temperature of the body.

DIRECTIONS.

Give the steak a rare broil over a brisk fire, and season with salt and pepper. Cut the meat in pieces about one-half the size of the cup, place on the cover, apply the pressure with the screw, and pour off the liquid before relieving the pressure. If preferred, tepid water may be added, but **AVOID HOT WATER.** Use no fat of any kind. For use at the bed-side, an alcohol cooking lamp for toasting, obtainable at any drug store, will be found convenient. A dry pan may be used where it is impossible to broil the meat.

Meat Juice is recommended for the aged and infirm, for delicate infants, for summer complaint, in extreme prostration from disease, for typhoid, pneumonia and consumptive patients, persons recovering from excessive use of intoxicants, women in a delicate condition suffering from Nausea, and in all cases where a perfect nourishment is required in a concentrated form.

For rectal administration it is invaluable.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 72.

The only PERFECT FEMALE SYRINGE ever offered to the Profession or the Public.

Unique in Principle, Mechanism, Operation and Effectiveness.

An entirely new principle. Volume exchanged for velocity and force. A reversible, interchangeable, washing current established between two flexible bulbs. Guaranteed to do more cleansing in three minutes with three ounces of water than any other female syringe can do in one hour with an unlimited quantity of water. No soiling of person or clothing. No wasting of medication. No Progressive Medical Man can afford to be Without One.

PRICE, \$3.00.

This Syringe supplies a want long felt by the Profession for something entirely safe to use in treating the internal uterus, and that can be conveniently guided and worked with one hand. For injecting and ejecting fluids, saturating prepared cotton, or blowing powder, it is unique in its work. For cleansing and medicating the internal uterus, deep wounds, fistulas, cysts, abscesses, the throat, the ear, the nose, the bladder, the urethra and piles, it has no equal. It is impossible for the probe point to injure, or even irritate the most delicate membrane. By placing the pipe over a steam jet it can be bent into any desired shape. For safety, convenience, effectiveness, durability and cheapness this Syringe will commend itself to the practical good sense of every Physician and Nurse. Price, prepaid by mail,

7-INCH PIPE, \$1.25. 3-INCH PIPE, 75c.

Matzoon, or Fermented Milk Food

PREPARED BY

MARKAR G. DADIRRIAN, M. D.,

213 Second Ave., cor. 13th St., - - - NEW YORK.

(OF THE NEW YORK UNIVERSITY MEDICAL COLLEGE, 1871.)

And for many years Resident and Practicing Physician in Constantinople and Asia Minor.

MATZOON is a fermented milk food, in the liquid condition, and used extensively in Armenia and Asia Minor as a refreshing beverage and invalids' food. It has the great merit of being **easily digested, highly nutritious**, and is a grateful **refrigerant** in febrile conditions. Through fermentation it contains abundant Lactic Acid, but not Carbonic Acid, and does not curdle in the stomach, as does ordinary milk, but is retained and digested in the most delicate and irritable conditions of this organ, as in Cholera Infantum, Ulceration of the Stomach, Chronic Dyspepsia, etc. It is of great benefit in incipient **Consumption, Bright's Disease, Diabetes and Nervous Exhaustion**.

It is a very valuable aliment in Fevers and in Convalescence from wasting and debilitating diseases.

In the vomiting of **Pregnancy**, and in any form of Obstinate Vomiting, its effect is immediate.

As a cure and preventive for **Sea-Sickness**, its efficacy is shown by the testimonials of numerous transatlantic passengers.

MATZOON is both more palatable and effective than *Kumyss*.

We, the undersigned, having used MATZOON for the past two years with entire satisfaction, recommend it to our professional brethren.

**DUCKER**

Portable Hospitals

Are especially constructed for Annexes to permanent Hospitals, to be used for contagious diseases of all kinds, as well as for portable Field Hospitals.

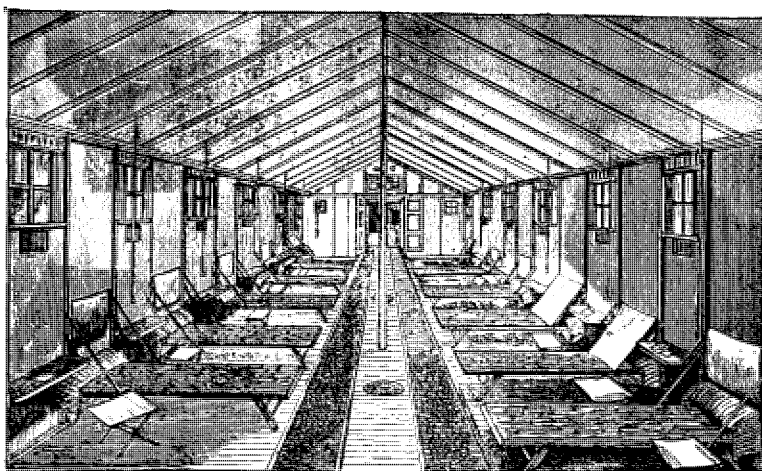

They combine most of the comforts and advantages of a permanent structure with the qualities of simplicity, stability, lightness, ease of transportation, quickness of putting up and taking down, ventilation, heating and facility of cleansing and disinfecting. Can be erected in one day without the use of nails, screws, or other external appliances.

Send for illustrative catalogue.

(WOMAN'S INFIRMARY AND MATERNITY HOME.)

Incorporated January 25th, 1884.

Reception House, 247 West 49th St., - NEW YORK CITY.

The "WOMAN'S INFIRMARY," in which uterine diseases alone are treated, having had many applications by physicians and others for accommodations for ladies of *respectable family* during pregnancy and confinement, procured a private house in a quiet street for that purpose, with a resident physician and trained nurses, thereby establishing the first branch of the MATERNITY HOME. Similar houses in different locations have since been added, and they not being advertised, are therefore unknown to the general public.

* * * * * There is but one house (*this reception house*) known, and the patient is only kept here long enough for us to ascertain that there is no one from *her own section* in the house where we propose to send her to, and in this way she runs no risk of ever being recognized and followed by the tongue of slander when she returns home. Not even in a desert or wilderness can you be more effectually lost than in a great city like New York, where living all your life, your next door neighbor will not know or care who or what you may be. * * * * *

In each house the rooms are well lighted and furnished with every comfort, cool in summer, warm in winter, and perfectly hygienic. The board *served in each room* is of the very best, and includes all the varieties the market affords. The trained nurses are in constant attendance, and patients are considered and treated as *ladies*. They are not confined to the house, but may, if they choose, pass in and out at all *reasonable hours* and visit and enjoy the beautiful parks and brilliant streets and stores. We are ready at any hour to send one of our own physicians or nurses to any railroad depot or steamboat landing, or to *any place in any State*, to meet a person coming to our house or to take charge of a child for adoption upon receipt of the necessary expenses.

WATSON'S NEW SYSTEM OF BOOK-KEEPING :- FOR :- PHYSICIANS

CONSISTS OF

A Day Book and Ledger.

The Day Book, *published annually*, is a complete, *practical* and *legal* form for keeping daily accounts. On the inside of the cover will be found directions for keeping accounts under this system. The Day Book contains a Title Page, a Table of Contents, a Calendar and a Table of Signs used in keeping the Day Book. For each week in the year the Day Book has four pages, one for *special charges*, one for *regular visits*, one for *expense account*, and one for *cash received*. The special charges are made upon the appropriate page and include examinations of the chest, abdomen, pelvis and their viscera, urine, joints, dislocations, fractures and all surgical operations, obstetrical delivery, instruments and medicines furnished. The page for Regular Visits is ruled in columns for name of patron, for *whom* visits were made, for day of the week and month, and columns for amount opposite each name at the end of the week. The page for daily expenses will show at the end of the week, all disbursements, and to whom paid, thereby rendering imposition from the unscrupulous almost impossible. The page for Cash Received will show the date and amount received, and from whom. This will enable the careful, systematic and methodical Physician to keep a clear, legal form of Day Book which will show *all claims against others* not only, but will exhibit at the end of the year all he has paid out and the cash received for his services. *All charges should be written in ink and posted into the Ledger weekly.* Price of Day Book, \$3.00 each. Copyright secured.

The Ledger is printed in clear type, on the best of paper; ruled in columns with appropriate headings to correspond with the *pages* of the Day Book. There are columns for regular visits, special charges, old accounts and total amount of debit, a *single* line of the Ledger containing the entire weekly account of a patron when posted. The credit side of the Ledger is ruled in columns to show the month, day, year, amount of cash paid, balance still due and time bills were presented. Kept properly, opposite each credit, *will appear* in column of balance due just what the patron still owes—an item of importance always. Copyright secured. Price of Ledger: 500 page Ledger, bound in leather, \$6.50; 250 page Ledger, bound in leather, \$5.00; 250 page Ledger, bound in cloth, leather back and corners, \$4.00. *The 500 page Ledger is the cheaper.* Address all orders to

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE

IMPORTANT ANNOUNCEMENT.**Enlargement of Manufacturing Facilities.**

THE Increased demands for my preparations from all sections of the country, have forced me to sever my connection with the dispensing department of my Pharmacy, which I have conducted for more than 30 years. I am now perfecting arrangements to increase my facilities to meet the growing demands of the trade, and shall endeavor to maintain the high standard of perfection of my Lozenges and other Pharmaceutical Preparations.

Thanking the Medical and Pharmaceutical Professions for their past appreciation and patronage, I respectfully call their attention to the following leading Pharmaceutical Specialties:

Hancock's Standard Medicated Lozenges Formulated in the various National Pharmacopœias and by eminent practitioners, including those formulated by Sir Morell Mackenzie, M. D., for use in the Throat Hospital of Golden Square, London, Eng. My lozenges have been favorably known and extensively prescribed for many years by the most eminent physicians in America.

Hancock's Aromatic Liquid Pepsin, A concentrated acid solution of pure Pepsin, with the sedative Properties of Distilled Peach Leaf Water. Many Physicians endorse it as the most active and pleasant preparation ever offered to the profession.

Hancock's Liquor Senna Duleis is a definite preparation of Cathartic Acid extracted directly from Select Senna Leaves. It is pleasant to the taste, and effectual as a laxative in drachm doses and as a cathartic in two drachm doses. Preferred by many to all other cathartics.

Hancock's Mistura Phosphatica, a pleasant and nutritious preparation of Cod Liver Oil, Glycerin, Phosphoric Acid and Jamaica Spirit. It is extensively prescribed and greatly preferred to other emulsions of Cod Liver Oil.

Visiting List Formulary and other information of Hancock's Standard Pharmaceutical Preparation will be cheerfully furnished upon application.

Retail Trade supplied through Wholesale Druggists or through me direct.

Correspondence Solicited.

J. A. BURGOON, M. D.,

No. 47 Ohio Street,

ALLEGHENY CITY, PA.

PROF. VERNON'S ELECTRO-THERAPEUTIC INSTITUTION

197 Jarvis St., Toronto, Canada.

For the Treatment of Acute and Chronic Diseases,

And Especially for Nervous, Obscure and Long-Standing Diseases that Resist Other Modes of Treatment.

Patients Treated Either at Our Institution or Their Homes. The Medical Profession in Sending us Special Cases May Rely on our Best Efforts.

We believe our system of Electrical Treatment is the best in use, considering the marked success that has followed our practice from 1869, and in Toronto since 1876, confirmed by our long list of references and testimonials of the highest standing. No institution can give better evidence of the high appreciation of its work by those who know its value. Our new discovery in compounding the best qualities of Electricity for Therapeutic purposes, generated by our improved Medical Machines, this subtle fluid is made to obey the mandates of the will through nature's fixed laws, and thus act upon the most obstinate forms of diseases, speedily changing the condition to health and vigor, and as kindly and quietly as the genial rays of the sun in springtime mellows the frozen earth and infuses new life in the soil. The mystery in making the marked cures we have, is simply in knowing how to utilize this sovereign power in the different qualities and modifications necessary to produce the desired chemical and other changes in the system. By the aid of our new discovery unique results are obtained, patients too low and weak for food or medicine have been restored—most obstinate, painful long-standing cases have been cured in a few scientific applications—it can be taken imperceptibly in large quantities—it can also be agreeably applied so the patient can see it, taste it, hear it, feel it, but not smell it. All are not aware that many Batteries and Electric Appliances in the markets have no curative properties. Our late improved Medical Batteries are rich in curative power and low in price. A valuable hand book with each Battery. Send or call for testimonials, references, etc., and learn what science and art have accomplished in this department. A work on nervous Diseases, Self Treatment, etc., 25c in stamps. Address,

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this ren will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAC

PROF. SAMUEL D. GROSS, M. D., in his "System of Surgery," Vol. II., page 507, Sixth Edition, writes as follows:

"The Hard Rubber Truss * * * * As now manufactured it would be difficult to point out a single fault in it, whether we regard the material of which it is composed, its durability, or its adaptability to the object for which it is designed. The best Trusses of this kind now before the profession are those made by I. B. SEELEY (now I. B. SEELEY & CO.), of this city, to which the Committee of the International Medical Congress, at its meeting in London, in 1881, awarded the only Certificate of Merit."

Our "Mechanical Treatment of Hernia and Illustrated Catalogue." Above tide-water. A delightful place for those seeking rest and recreation. Air compared to Colorado. Personal care and attention to guests. Persons desiring to go from home for

recreation and recuperation of health and strength will find the "Mountain Sunset House" just the place to go, as we have

pure mountain air, pure, cold, soft water, a first-class table, beautiful scenery and quietude from the busy bustle of city life. It is remarkable with what rapidity enervated and over-worked persons recuperate in this atmosphere.

The closet arrangements and drainage are positively unsurpassed, rooms are furnished in the best taste, and no expense has been spared in making it an elegant and comfortable home for the accommodation of both winter and summer guests.

CHICAGO OPHTHALMIC COLLEGE.

A School of Ophthalmology, Otology and Laryngology, for Graduates in Medicine and Opticians

FACULTY:

John E. Harper, A. M., M. D., President, 163 State St., Professor of Diseases of the Eye and Clinical Ophthalmology. H. M. Martin, M. D., Secretary and Treasurer, 163 State St., Professor of Optics and Clinical Ophthalmology. J. Brown Loring, M. D., M. R. C. S. Eng., 674 West Lake St., Professor of Diseases of the Ear. Geo. F. Hawley, M. D., 125 State St., Professor of Diseases of the Nose and Throat and Clinical Rhinology and Laryngology. A. J. C. Saunier, M. D., 181 W. Madison St., Professor of Pathological Histology and Microscopy. Oscar A. King, M. D., 70 Monroe St., Professor of Diseases of the Nervous System. C. C. P. Silva, M. D., 163 State St., Professor of Special Therapeutics.

This school, incorporated March 19, 1886, is designed for graduates in medicine who desire to further perfect their knowledge of Ophthalmology, Otology, Laryngology and collateral branches. A special course of instruction is also given those who wish to become qualified as practical opticians. The two courses are essentially distinct, and a separate certificate of diploma is issued to the graduates in each.

COLLEGE BUILDING—The college is easy of access and desirably located. The lecture and clinical rooms are large and well arranged. They are furnished with all the instruments and apparatus necessary for thorough, practical study of the subjects taught. The dark room is sufficiently large for a class of ten at one time to receive personal instruction in the use of the ophthalmoscope. At the same time another class can be drilled, by an instructor, in recognizing and correcting errors of refraction and making diagnosis, or witnessing surgical operations and the treatment of diseases.

COLLEGE HOSPITAL AND DISPENSARY—The upper floors of the College building are divided into hospital wards and single rooms for private patients. Twenty beds are in use and there is space for several more when required. The class of cases received represents all the most serious forms of disease with which the practitioner is likely to meet.

The dispensary supplies ample material for illustrating all the acute and chronic affections of the eye, ear, nose and throat. An abundance of cases showing all varieties of refractive errors, give each student an opportunity of familiarizing himself by personal experience with their detection and proper relief by the adjustment of glasses.

A course of lectures will begin the first Tuesday of each alternate month, beginning with January, 1890, and continue daily (except Sunday) for four weeks.

REQUIREMENTS FOR GRADUATION—The candidate must furnish evidence of the following qualifications: 1. Good English education. 2. Good moral character. 3. One or more courses of lectures in this college. 4. Satisfactory examination.

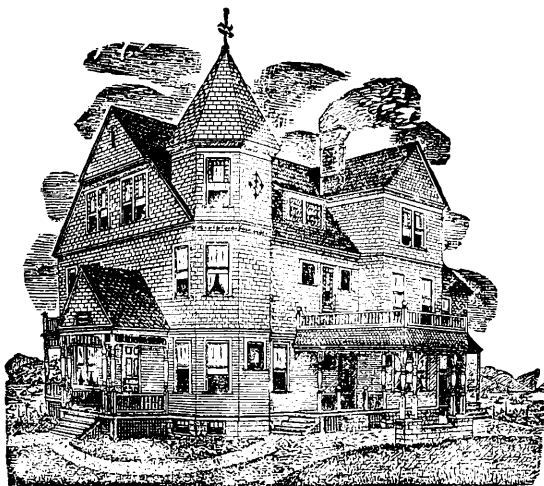

FEES—Fee for the first course, \$50. Fee for each additional course, \$25.

THE VERMONT Nervine Establishment

-AND-

"Rest Cure."

Dr. A. J. Willard's Private Institution

For Nervous Invalids,

North Prospect Street, Burlington, Vt.

FOR - ALL - NERVOUS - AND - MILD - MENTAL - DISEASES.

DR. WILLARD was the Superintendent and Resident Physician of the Mary Fletcher Hospital for nearly six years. It was his long experience in that Institution which induced him to establish this home for nervous invalids, as he found in a general hospital no provision for their special needs. His new Sanitarium has a picturesque location, with lake and mountain views. Moreover, it combines all the modern conveniences, with Vapor and Electrical Baths. The heating is done by the hot-water system, supplemented by numerous fire-places. All the patients' rooms have either an eastern or western exposure. Especial pains have been taken with the ventilation and plumbing. DR. WILLARD RESIDES WITH HIS PATIENTS, thus insuring them constant personal care. He uses all the best methods, but makes A SPECIALTY OF THE S. WEIR MITCHELL "REST TREATMENT." Only trained nurses employed. Terms and references satisfactory. Send for circular.

Health is the rightful heritage of all, the loss of it the violation of Nature's laws.

The new Bio-Chemic Treatment of Disease by the use of Inorganic Cell Salts (the natural constituents of the various tissues of the human body) as specially prepared in the *Molecular Cellular Therapeutics* of Dr. Schussler, of Oldenburg, Germany, is founded upon the *New Cellular Pathology* of Prof. Virchow, the eminent pathologist of Berlin, and the views of Prof. Moleschott, University of Rome, as to the part played by inorganic substances in the process of nutrition. Under this system all the remedies used prove *unfailing specifics* when the diagnosis has been correct. This is an entirely new phase in the progress of Medical Science, and the greatest advance since the discovery of the circulation of the blood by Harvey, 1616, and the direct result of the recent discoveries of Virchow and others with the microscope and spectroscope as to the true functions of the cellular tissue and the conditions of the blood in disease. One of the most attractive and prominent features of this new treatment is, that it is in no degree antagonistic to the Medical Science of the day, but complimentary of it, and a new step in medical progress. Dr. Schussler has, by introducing this new treatment of disease, substituted scientific accuracy for a d-fashioned conjecture, experimentation, and precedents of experience, and secured successful results in many forms of disease formerly considered incurable; notably in Diabetes, Mellitus and Bright's Disease, Brain and Nervous disorders. For further information consult personally or by letter, The International Specialists. No letter noticed unless stamp is enclosed. Address ALL communications to FRANZ C. A. GOERSS, M. D., East Saginaw, Mich., Lock Box 544.

MISSOURI College of Midwifery and LYING-IN INSTITUTE.

THE REGULAR SESSIONS of this Institute commence on the first Mondays in March and September, continuing about fourteen weeks.

This College has all the facilities for conferring a complete education in the branches taught, which are:

Midwifery, Diseases of Women and Children, Anatomy and Physiology. The intention is not to make regular Practitioners of Medicine; but to educate women in those branches of the profession for which they are peculiarly adapted.

FACULTY:

W. C. RICHARDSON, M. D., President.

T. W. CONZELMAN, M. D., Secretary.

SOPHIA L. SCHIERECK, M. D., Treasurer.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, it will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to complete a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE

EGAN IMPERIAL SPIRAL SPRING TRUSS.

This Truss has a Spiral Spring Pad, varying in size and form, as well as strength of Spring. The pressure being circular, adapts itself to every motion of the body. Worn Day and Night. The Adult Pad gives a pressure from 3 to 10 pounds. The springs are all interchangeable one with the other, and can be exchanged till the proper pressure is obtained, without extra expense. Our Infants' Truss is a perfect success. The Umbilical Truss is something new and never fails. Pronounced by the best Medical Authority to be the best Umbilical Truss. This truss is used by the best medical men of Ann Arbor and in the Hospitals of the University of Michigan.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAC

DR. J. B. HOBENSACK'S

Medical Office has been established at 206 North Second Street, Philadelphia, Pa.,

FOR OVER FORTY YEARS.

During that time have cured more cases of special diseases and wrong treatment of Quacks than all others combined, and if your case is curable I can cure you in less time and at less expense than any others can or will. Those who have been robbed of their money, health and patience are invited to call. It will take but little money to restore them to health. Beware of the advice of quacks, apothecaries or friends, unless they advise you to consult a regular physician of special diseases. Remember that on your health depends your happiness in after years. Adults and youths who suffer from that fatal practice that destroys both body and mind, causes consumption, mental and physical debility, nervousness, epilepsy, weakness of the limbs and back, indisposition, incapacity for duty and labor, loss of memory, aversion to society, self-distrust, dizziness, headache, etc., are invited to call and be cured.

Office hours, 8 A. M. to 2 P. M. and 6 to 9 P. M. Closed Sundays. **Send for Book.**

PRACTICAL TRUSS MAKER.

After devoting my whole time for a quar-
ter of a century in manufacturing and fitting
Trusses, I am able to say to all persons who
have hernia (or rupture) that there is no
condition in which hernia is met with, in
men and women, children or infants, that I
cannot fit with a Truss that will afford the
relief sought for. Give me a fair chance to
try, and I will make a decided improvement
in you in a few minutes.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE P.

Dr. Samuels' World's Dyspepsia Cure

Is acknowledged by Physicians and Druggists (at the home of its manufacturer or wherever known) to be a great Medical Discovery and the best known remedy for **Dyspepsia, Indigestion** and all other Stomach or Bowel Complaints. No family should be without a bottle in the house, as anyone is liable to be taken with CRAMPS IN THEIR STOMACH, CHOLERA MORBUS, DIARRHŒA or DYS-ENTERY, and this remedy is always reliable if given in the first stage of the disease. The discoverer has used it himself in India, and different parts of China for Asiatic Cholera, and has never known it to fail, if given when the first symptoms come on (which is purging and vomiting). It also prevents Cholera and other diseases caused by poison taken into the stomach, if used in 20 or 30 drop doses three or four times a day when the disease is prevalent. It is a vegetable preparation and perfectly harmless when taken according to directions. Full directions and advice to dyspeptics (as regards diet) accompanies each bottle. Manufactured by the

THE PHILADELPHIA
BELLEVUE INSTITUTE of MEDICINE and SURGERY,

Philadelphia for a century past has been noted for being the first place in the United States for its medical, legal and scientific research; and the Bellevue Institute in like manner now, for nearly a quarter of a century, has become distinguished for its remarkable and wonderful cures of the most formidable diseases, even those of a truly desperate nature, and hence it has become national in its character and reputation; patients coming from all portions of the United States, the Canadas, and even portions of foreign countries, to place themselves under the professional care of R. H. Kline, M. D., 931 and 933 Arch St., Philadelphia, Pa.

F. F. CASSEDAY, M. D., EYE AND EAR SURGEON,

Devotes exclusive attention to

DISEASES OF THE EYE, EAR, THROAT AND NOSE,

Including the fitting of spectacles. **Catarrh Successfully Treated.**

Patients requiring operations, or others, can be furnished with first-class accommodations and skilled nurses at reasonable cost. All correspondence will receive prompt attention. Address,

1428 Baltimore Avenue, KANSAS CITY, MO.

DROPSY

Positively Cured with Vegetable Remedies.

Have cured many thousand cases through the U. S. and Canada. Cure patients pronounced hopeless by the best of physicians. From first dose of medicine the symptoms rapidly disappear and in ten days at least two-thirds of all symptoms are removed. Thirty to sixty days to effect a permanent cure. **Ten Days' Treatment Furnished Free** in order that the patient may realize the great merit of our treatment before paying out any money. Under this proposition can any person be wicked enough to cry humbug? If you order ten days' treatment give a full history of the case, and send ten cents in stamps to pay postage. No medicine will be sent unless name of patient is given. Send for free book containing testimonials of miraculous cures, questions, etc.

DR. H. H. GREEN & SONS,

30½ Marietta St., Atlanta, Ga.

Have treated Dropsy and its complications successfully for the last seventeen years.

TREATMENTS GIVEN BY DR. E. J. SMITH,

No. 1426 S Street N. W.,
Washington, D. C.

MEDICAL ELECTRICIAN.

Who has cured and relieved many in the city of Washington, by her Electro-Therapeutic Bath (the invention of Dr. L. von Dolcke, of Philadelphia), who have been sufferers for years; by removing the CAUSE of the disease, when MEDICINE has failed to do any good; the patient invariably getting relief at once, and cured after a course of the treatment according to the nature of the disease. Call and see her and she will be glad to give full information about the treatment. Medical men solicited to call and see the Bath. The treatment particularly beneficial for Malaria, Dyspepsia, Rheumatism, Neuralgia, Catarrh, Consumption, Inflammation of the Eyes, Headache, Deafness, Asthma, Bronchitis and all Throat Troubles, Paralysis and all Nervous Affections, Tumors, Early Stages of Cancer, and diseases peculiar to women, and all other troubles too numerous to mention.

Ladies and Gentlemen Treated.

"A WONDER OF THE WORLD."

DR. H. W. LIBBEY may be truly said to be "a wonder of the world." His MIRACULOUS CURES have been commented upon in all parts of the globe for THIRTY-FOUR YEARS. He has made Chronic Diseases a Specialty, and has cured thousands of cases after being given up by some of the most skillful physicians known. His method is original. He uses no DRUGS, but selects the HARMLESS HERBAL GROWTHS OF THE FIELD AND FOREST, and combines them into wonderful remedies. He compounds and puts up over ONE HUNDRED AND TWENTY Special "Herbal Remedies," for all forms of disease known to man. He has given personal treatment to over TWENTY THOUSAND ladies for all diseases peculiar to their sex. He makes a written diagnosis of your disease at any distance, by simply having your age, name and place of residence, charging only ONE DOLLAR, and this will be deducted from the price of the first package of remedies. He has a record of nearly THIRTY-FIVE THOUSAND CASES. Can furnish more genuine testimonials of cures made than any other physician living. He prefers cases given up by other physicians. For any more particular information regarding his practice, send for his "Guide to Health," sent FREE to invalids, address

DOCTOR H. W. LIBBEY, "Hygienetarium," 55 Rutland Sq., BOSTON, MASS.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE

Baltimore Family Health Journal**A Monthly Journal of Preventive Medicine.**EDITED BY FLORA A. BREWSTER, M. D., AND
CORA B. BREWSTER, M. D.**1027 Madison Ave., Baltimore, M. D.**

Each number will contain one or more articles on dietetics, or the proper foods in health or disease. The Infant and Children's department will contain valuable hints upon the care of children which every mother should know. During the year 1890, "Christian Science," etc., will be criticised from a medical point of view. The Journal will contain much valuable matter teaching you how to keep well. Agents wanted, to whom a liberal commission will be given.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 1476.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely no a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 1

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nurse a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 1604

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this ren will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely not a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAG

THE JOHN A. BARRETT BATTERY CO.,
BALTIMORE, MD.

BRYAN'S ELECTRICAL WORKS, Springfield, Ohio.

This cut represents Bryan's Ten-Power Faradic Battery, which is manufactured exclusively for Physicians. It is the only acid-proof portable battery in the world, and is guaranteed not to leak.

Cabinet photographs of our Galvanic Batteries, Galvano-Cauteries, Faradic Machines, Attachments, Electrodes and Appliances will be furnished free of charge by mail on application.

Bryan's Ten-Power Faradic Battery meets all requirements where a rapid or slow interrupted current is desired. The simple design and superior construction of this machine, the extra quality of material used, and the extreme care taken in building it, renders this battery the most perfect of its kind in the world. The cell (Bryan's Battery Bottle) is guaranteed to be perfectly acid-proof, and though it be conveyed over the roughest of roads, not one drop of the solution need escape.

Bryan's Galvanic Batteries.—We make the only acid-proof tipped-celled Galvanic Battery in the world—the hard rubber cells being identical to those used in our Faradic machines.

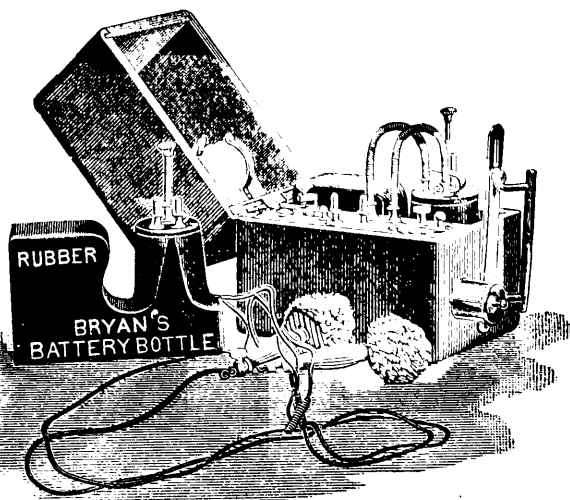

Galvano-Cauteries.—It is small, compact, handy, durable, and withal very powerful—being capable of holding a number sixteen platinum wire to white heat for two consecutive hours. It can be put in operation *instantly*, and only a *second's time is required to stop all action*. It is not necessary to remove the acid solution from the cell in transporting it. The cell is absolutely acid-tight and not one drop need escape. It is always ready for use and does not require re-charging every time it is used.

Medical Electrodes.—We manufacture all kinds of Electrodes.

Repairing at Low Rates and Satisfaction Guaranteed.—We repair any kind of batteries. We have constantly on hand a variety of standard Medical Books at very low prices. To physicians desiring second-hand Medical Batteries for patient's use, we will furnish the best instruments on the market at about one-third original cost. We have a large variety in excellent repair.

THE BLAIR Medical Electric Pocket Dynamo

Patented Oct. 16th, 1888.

A GENERATOR OF ELECTRICITY FOR MEDICAL PURPOSES—
WITHOUT FLUIDS OR PLATES.

Being a powerful current produced by an Electric Dynamo, avoiding the use, danger and inconvenience of acids used in Electro-Galvanic Batteries.

Advantages of this Battery over all others:

It is far cheaper. It will do the work of a twenty-five dollar battery.
It is always ready for instant use.
It can be carried in the pocket.
It is much stronger proportionally than other batteries.
It has no acids (always dangerous) or zinc plates to wear out.
It is so simple a child can use it.
It is absolutely harmless, being entirely controlled by the operator, for the slower the pull, the milder the current, and the faster the pull, the stronger the current.

PRICE, \$8.00.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7.

No. 42.

Invalid Lifting Machine for Hospitals.

Frame 7 feet Long by 7 feet High.

The Lifter can be used over any bedstead. It is made of gas pipe, hence very light and strong. The process for raising and lowering the patient is simple, easily accomplished, and can be performed by any one. Fixed double wheel casters are used on this Lifter.

The back rest used on this Lifter can be attached to any of our iron bedsteads at a small cost.

No. 7.

Woven Wire Stretcher for Hospitals.

Heavy double weave fabric, on hard wood frame, well varnished.

We put legs on this Stretcher if desired at a small extra cost.

Heavy canvas can be used instead of woven wire if desired.

Illustrated Catalogue with Price List and Discounts furnished on application.

No. 46.

Protection Bed for Insane Asylums.

Size, 6 ft. 3 in. x 2 ft. inside.

Recognizing the fact that there has not as yet been any Protection Bed manufactured sufficiently strong to withstand the ingenuity and strength of violent patients, we have especially designed this bed to fill that want.

This bed is double the strength of anything ever before manufactured for the purpose, and is provided with a double spring lock, the catches being placed at equal distances from the ends, thus equalizing the strain. The bolt locks are in the gas pipe, where they are fully protected; they join in the center and are drawn with a single key,

No. 16. Asylum and Hospital Bed, Complete.

With Adjustable Woven Wire Mattress.

Head and foot made of $\frac{3}{4}$ in. gas pipe, with cross rods of $\frac{3}{8}$ in. round iron, nicely painted. Bed bottom adjustable, with heavy fabric on hard wood frame, well varnished. All castings of best malleable iron. We make this bed with iron plates to fasten to the floor, as illustrated, or with casters.

Head and foot easily fastened to bed bottom, so that no patient, however violent, can detach them. We make a specialty of Hospital, Asylum and College Beds.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 2.

MANUFACTURERS OF THE

"CLARK"

Physicians' Chair.

85 and 87 EAST SOUTH STREET,
INDIANAPOLIS, INDIANA.

OVER 5,000 IN USE.

IT WILL PAY YOU TO INVESTIGATE

The IMPROVED CLARK CHAIR

IT LEADS THE WORLD.

Recent valuable improvements make it the most complete Chair for general office purposes ever offered to the Profession.

We have many testimonials from those who are using our chair, similar to the following expressions from eminent physicians:

GENTLEMEN:—Having tested the utility of your chair in a great variety of Gynæcological operations, I find that it answers all the requirements admirably. It is comfortable for the patient, convenient for the operator, and is more ornamental as a piece of office furniture than operating chairs usually are. I prefer a chair to a lounge or table for Gynæcological work, and yours is the most complete and excellent of any with which I am acquainted.

Respectfully yours,

L. S. SANDFORD, M. D.,

Prof. of Anatomy in Yale College, New Haven Conn.

I like your chair very much.

Yours respectfully,

ROBERT REYBURN, M. D.,

*Prof. of Physiology and Clinical Surg., Medical Dep't
Howard University, Washington, D. C.*

DEAR SIR:—I take pleasure in saying a good word for your Gynæcological Chair. I have used many kinds of chairs, lounges and tables for office work, but none of them seemed to meet all the requirements as well as your chair. I can cheerfully recommend it.

Yours truly,

JOHN W. STREETER, M. D.,

Prof. of Gynæcology, Chicago Homœopathic College, Chicago, Ill.

THE DAGGETT Examining Table

NEW ILLUSTRATIONS EVERY MONTH.

"STANDARD." Fig. No. 10.

Figure No. 10.—Illustrates the STANDARD set with double inclination. The patient gets upon the step with her left side toward the table and adjusts her clothing, rests her thigh across its end, reclining upon her left side, carrying her left arm back and her left ankle upon the rest, her right knee over and above its fellow against the guide, and her head upon the pillow. The physician then tilts by means of the sliding levers. The patient will be comfortable for any reasonable length of time, and no physician need say, "I cannot use Sims' Speculum, or utilize the side position without the aid of a skilled assistant." Let down the inclinations before the patient descends.

These Tables are made with Polished Wood or Upholstered Tops. We also make a Folding Cushion and a Cabinet Case, which can be placed on the platform.

(See *American System and Cyclopaedia of Gynecology*.)

Adapted to all the requirements of Medical Men.

Address THE DAGGETT TABLE CO., 258 Franklin St., Buffalo, N. Y.

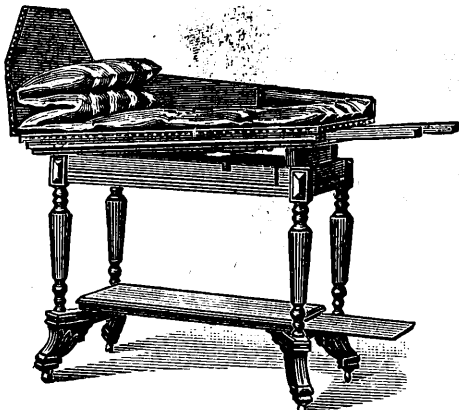

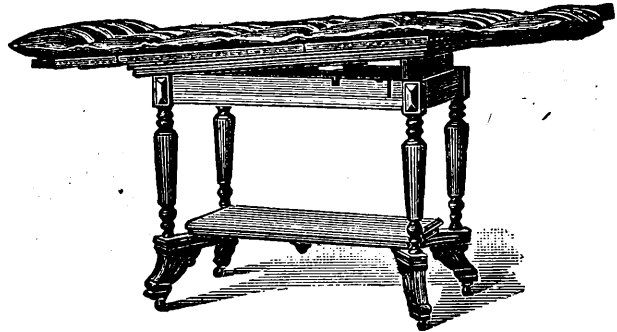

Figure No. 5.

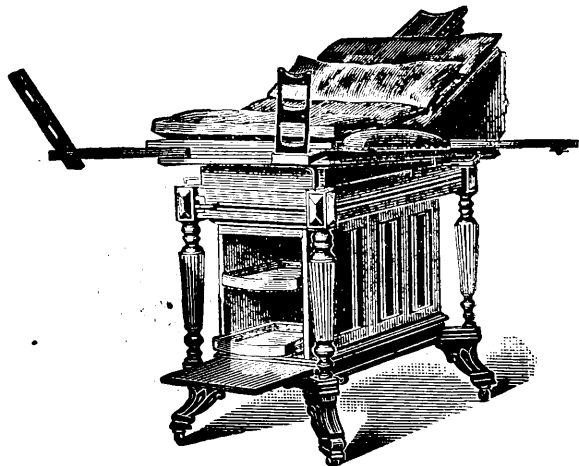

Illustrates the STANDARD arranged for the Gynecologist and Proctologist by raising the headboard (its purpose is to prevent the patient from getting too far over on the table) and knee rail and attaching them by a lever. The adjustable stirrups and step are in place.

"STANDARD." Fig. No. 3.

Figure No. 3.—Illustrates the STANDARD tilted lengthwise, by using the slide at the foot as a lever, when the automatic supporting rail takes its place.

This position is useful for syncope after anesthesia and reduction of hernia.

"STANDARD." Fig. No. 21.

Figure No. 21.—Illustrates the STANDARD with a case of drawers and revolving cabinet of antiseptic, portable trays. Stirrups raised or flat. Shelf, head rest and towel rack. Mounted in brass.

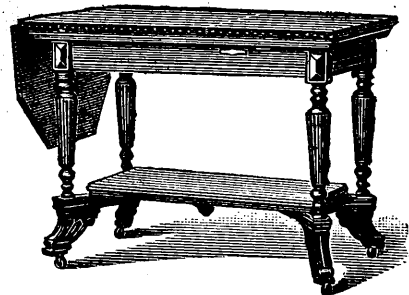

Figure No. 1.

Illustrates the STANDARD closed. It is 24x40 inches, mounted upon ball bearing castors, is easily moved and requires but little space.

ORDER KREHBIEL GELATINE CAPSULE. KALAMAZOO, MICH.

Medical and Surgical Sanitarium, BATTLE CREEK, MICHIGAN.

INCORPORATED, 1867; RE-ORGANIZED, 1876.

This Institution, organized and incorporated more than twenty years ago, as a self-supporting philanthropic enterprise, has long held the foremost place among scientific medical institutions of the sort.

The various buildings of the Institution are located on an elevated site of ten acres in the most eligible portion of the city of Battle Creek, overlooking the city and many miles of beautiful country.

The buildings of the Institution consist of two Main Buildings, three large dormitories, ten pretty cottages, and a beautiful Villa on the shore of a pretty lake in the vicinity. The various buildings accommodate between 600 and 700 persons. The surroundings are exceedingly beautiful and salubrious. Water pure and soft from sandstone rock. The summer climate is cool and breezy, like that of the North-West. The winter season is mild as that of Southern Ohio and Illinois.

This Institution is not a summer resort nor a mineral spring establishment. It is not a place for pleasure seekers, and offers no special inducements to such. It is a pleasant home for chronic invalids, where can be found all the advantages and facilities of the best Hospitals combined with those of the most thoroughly equipped Sanitarium.

The medical staff consists of eight regularly educated physicians in good standing in the profession, and nearly one hundred trained nurses and medical attendants.

Patients are not treated upon an empirical or routine plan. The Institution is not a "water-cure" nor a "diet cure," nor is it committed to any "one-idea" system. Each case is carefully studied

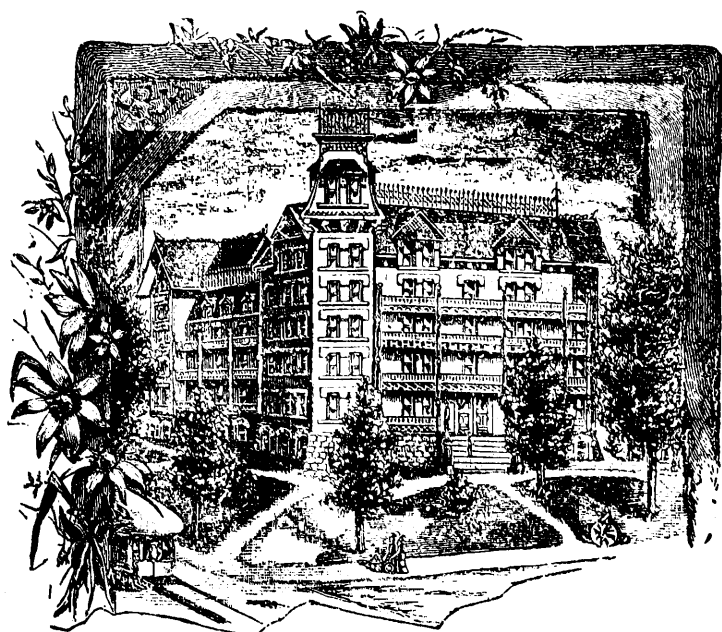

by itself, by the aid of all the helps which are afforded by all known means of physical examination.

The Institution affords the most complete facilities for the employment of massage, Swedish movements, electricity, hydrotherapy, and medical gymnastics to be found in this country.

In the surgical department, the most scrupulous attention

is given to asepsis, not only by the use of sterilized solutions and dressings, fumigations, etc., but by most thorough-going ventilation. Provision is made for 8,000 cubic feet of pure, warm air for each patient hourly, which practically secures out-of-door purity. A large new building, equipped in the most perfect manner, and affording more than 100 beds, is devoted to surgical cases. Surgical patients are not crowded into large wards, but each patient is provided with an airy room furnished with independent heat supply and its own ventilating duct.

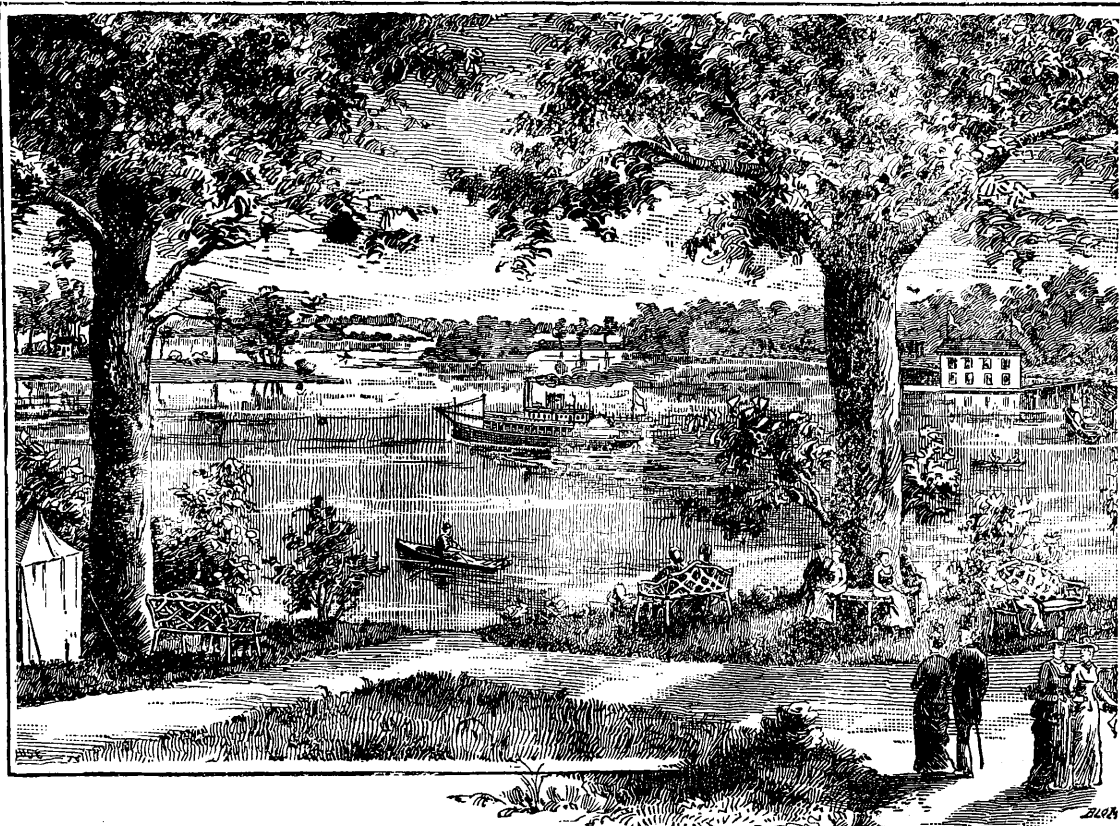

Especial attention is called to the exceptional advantages afforded by this Institution as a Northern Winter Resort for invalids requiring special protection during the winter months. These advantages include special apartments for those requiring extra care, in which are secured, by special appliances, an artificial climate, varied to suit the wants of each patient, and medicated atmospheres, also specially adapted to individual cases.

THE SANITARIUM HOSPITAL, Erected 1888.

The gymnasium connected with the Institution is one of the finest and most thoroughly equipped in the country. Each patient receives a prescription for exercise, first having the strength of the various parts of the body tested by a dynamometer and recorded. By this means, the exact degree of improvement or change under treatment may be noted and recorded from time to time.

On the shore of the beautiful Lake Goguac, about a mile and a half distant from the Sanitarium, is located a handsome Villa erected

View of Lake from Sanitarium Grounds.

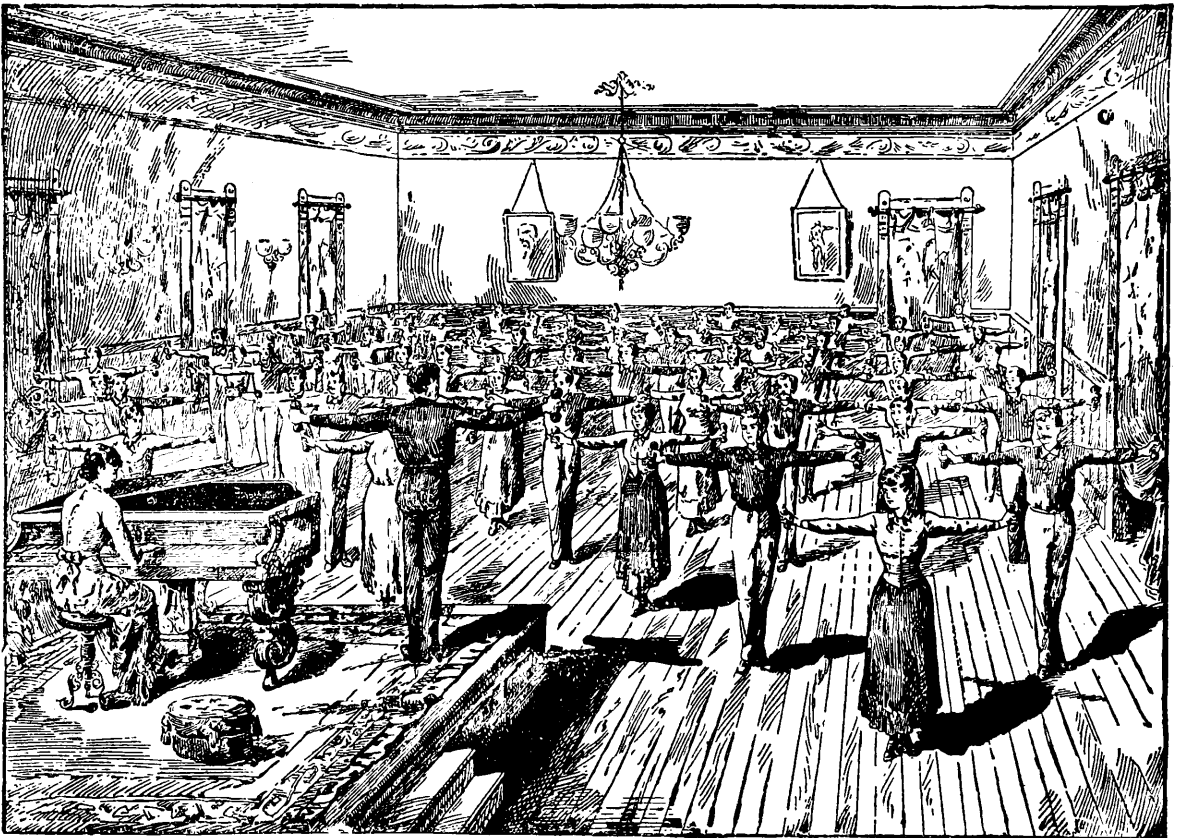

by the Managers of the Sanitarium for the use of the patrons of the Institution. A street car line runs between the main building of the Sanitarium and the Lake. Those who require isolation and exceptionally quiet surroundings find this a grateful retreat.

A nurses training school with a two years' course of daily instruction, a school of domestic economy for giving instruction in healthful cookery and sanitary housekeeping, a nursery and kindergarten for the care and instruction of the children of patients, usually accommodating between forty and fifty little ones, an aseptic maternity in which confinement cases have the advantage of the most skillful care both in preparation for and during confinement, — these are a few of the special departments.

The Managers of the Sanitarium have spared no pains nor expense to make it one of the most complete medical establishments in the world. They have felt a just pride in the fact that the Institution was a pioneer among scientific establishments of the sort in this

country, and have sought to make it worthy of the respect and confidence of scientific medical men. The ambition of the Managers has been to make this establishment a desirable place especially for the following classes of invalids:—

Those who are very sick with chronic maladies, and are unable to obtain at home proper care and treatment. Those whose cases require the scientific application of galvanic or faradic electricity. Those who need the employment of massage or Swedish movements by trained manipulators. Gynecological cases requiring absence from home, with proper local treatment and experienced management. Cases requiring quiet or isolation, and the employment of

THE GYMNASIUM.

the "rest cure." Cases requiring change of surroundings, relief from home cares, and such aids to physical or mental recuperation as can be afforded by a careful regulation of diet, regimen, exercise, etc. Those requiring careful dietetic management, use of stomach tube, specially prepared food, etc. Those requiring special physical training, as cases of lateral curvature, weakly boys and girls, and bed-ridden invalids who have no grave maladies, but need to be gotten upon their feet by carefully graduated exercise with suitable helps. Cases requiring abdominal section or other serious surgical operations which need special preparation and conditions. Cases of nervous disease needing experienced care and discipline, as hysteria, hypochondria, obstinate neurasthenia, etc. Mild cases of mental

disease needing seclusion and careful attendance, with the employment of baths, massage, etc., and which are not dangerous, violent, or offensive. (Patients of this class are cared for in a separate building, and do not come in contact with others.) Persons needing to be reformed from the use of alcohol, opium, or tobacco,—none received except those who wish to reform, and will co-operate in the effort made for them. Cases of disease of nose, throat, or lungs, requiring special treatment. Cases of disease of the eye or ear, requiring the services of a specialist.

A large part of the patrons of the Institution are sent by their home physicians, with whom the medical superintendent is always glad to correspond respecting cases before receiving them into the Institution, and with whom it is the aim of the medical staff to co-operate in the management of cases coming under their care.

The purpose of the Managers of this Institution has been to make it a place to which physicians may send patients needing change or rest, or medical and surgical care or nursing not procurable at home, and with confidence that they will receive the attention desired, and will be dealt with in a strictly honorable and professional manner.

Expenses are moderate, ranging from \$10 to \$20 a week. \$10 a week extra, when special nurse is provided.

All of the earnings of the Institution, not required for improvements and repairs, are devoted to the treatment of the worthy poor. Thirty free beds are provided for this class of patients.

Fuller information will be cheerfully furnished, if desired

Sanitarium Training-School for Nurses.

Regular Terms Begin Nov. 1. Students Received at Any Time.

This School has now been in operation for five years, with constantly increasing patronage and success.

Course of Instruction:

The course of instruction comprises two series of lectures, recitations and practical instruction, continuing through two years.

Methods of Instruction:

The instruction is both theoretical and practical. Several lectures and recitations are given each week. Each student is required to become familiar with the subjects taught, by actual practice. The following are among the leading topics taught: *Anatomy, Physiology, Elementary Chemistry, Nature and Causes of Disease, Language of Disease, Principles of Cure, Management of Common Diseases, Dressing of Simple Wounds and Injuries, General and Individual Hygiene, Ventilation, Disinfection, Air and Water Contamination, General Nursing, Surgical Nursing, Monthly Nursing, Bandaging, Hydrotherapy—theoretical and practical, Application of Electricity—Faradic, Galvanic, Static, and the care and management of batteries, Diet for the Sick, Massage, Swedish Movements, Calisthenics, What to Do in Emergencies.*

Qualifications:

The requirements for admission are good health, a good moral character, a fair education, and natural ability adapted to the profession. Students are not received under nineteen years of age, nor over forty.

Special Advantages:

The advantages offered by this school are in many respects superior to those offered by any other, not excepting the older schools in the large cities.

TERMS.—Students pay board and tuition in labor the first year; wages are paid the second year.

WHEAT GLUTEN.

Gluten, the nitrogenous and flesh-forming element of wheat, barley, and rye, is the most remarkable of all food elements, in that it alone is capable of sustaining life indefinitely, in the absence of all other elements.

Gluten is that adhesive substance of rubber-like consistence, which is left after washing a portion of dough upon a sieve under a stream of water. It is by this or some similar process only, that gluten can be separated from the starch and other elements with which it is combined in foods. It is by this laborious process that our product is prepared from the finest quality of wheat. Large quantities of bogus Gluten are sold under various names, as was shown a few years since in a valuable article in the *Scientific American Supplement*. Some of the Gluten flours, (so-called), contain less Gluten than good qualities of white flour. Our wheat Gluten is guaranteed to be just what it is represented.

Gluten is eminently adapted to all cases of *feeble nutrition, impoverished blood, general debility, nervous exhaustion, chlorosis, diabetes, and all diseases attended by general weakness*. It is also exactly suited to many forms of dyspepsia, as *acid dyspepsia, or sour stomach, biliousness, gastric catarrh, flatulence*, and many other *gastric derangements*.

In consumption, scrofula, and all wasting diseases, as well as in *fevers*, and in *convalescence from any acute disease*, nothing can excel in value this *delicate, digestible, and toothsome article of diet*.

As Gluten constitutes less than ten per cent of ordinary wheat flour, it will be seen it must necessarily be a somewhat expensive food; and if we add to this the great labor of separating it, which must all be performed by hand, it will at once appear that the gluten flour and other preparations offered at slightly more than the cost of ordinary flour, are fraudulent goods. Indeed, it may be stated on the best of authority that it is impossible to make a flour containing a larger amount of Gluten than that found in the flour of the entire wheat. There is no process of milling by which Gluten can be separated from starch. Our Gluten is prepared ready for use, and requires no cooking. We believe it to be *the only Pure Gluten made in this country*.

We manufacture two grades of Gluten. No. 1, which is pure Gluten, and No. 2, from which a portion of the starch has been removed. It is only in the most extreme cases that the pure Gluten must be employed. In ordinary cases, No. 2 is quite as good as a "health food" as the more expensive No. 1.

PRICES.

No. 1 Pure Gluten (guaranteed to be free from Starch), 60 Cents per pound.

GRANOLA.

Granola is composed of the choicest portions of the three principal grains,—wheat, oats, and corn,—which in the course of manufacture are subjected to such processes as produce changes in the starch and gluten identical with those which take place in the early stages of the digestion of these elements.

It is a Partially Digested Food, in which the digestive action is not produced by animal ferments, which while digesting the food elements, also develop to a greater or less extent the undesirable, and to some degree poisonous, alkaloids known to the chemist as *ptomaines*.

Granola is the food *par excellence* for invalids, infants, travelers, and all who wish to obtain the largest possible supply of nourishment with the least labor on the part of the digestive organs.

This food has been carried by missionaries and other travelers to the interior of India, to Australia, to South Africa, and to the Islands of the Sea, and has demonstrated our claim for it that *Granola keeps in any climate*.

Granola is one of the most palatable of foods. Like bread, one never tires of it, and it is as acceptable to the capricious taste of the invalid as it is wholesome for his feeble or jaded digestive organs. This food requires no cooking. It is only necessary to moisten it with a little water or milk, and it may be eaten at once. Sold in bulk or in neat pound packages.

PRICES.

In one-pound packages, 12 cts. per pound.

MEDICAL AND SURGICAL

Globe Surgical Chair

THE LATEST AND BEST.

More and Better Positions given than with any other surgical chair made. Is adapted to the practice of **any specialty**. All changes of position easily and quickly made. Can be **elevated** from the lowest to the highest point in **three seconds of time** without the use of cogs, cranks, screws or levers, and can be operated from either side.

Sims' Position correctly given; also, a most perfect and easy kneeling position of great utility in the practice of **Rectal Surgery**.

In **Parlor Position** as shown in cut, its appearance is not suggestive, and in this position is particularly adapted for **Throat and Nose Work**. With a slight change it gives a most comfortable position for reading. Owing to the combination of a **Short Back and Head-Rest**, the best possible position for **Removing Hairs** from the face by **Electrolysis** can be had. In case of **Anæsthesia Narcosis** the patient's head can be quickly lowered to the floor. Every chair is provided with a **Head-Rest** and a **Spittoon Holder**. The **Stirrups** slide under the seat out of sight. Prices low. For full particulars send for Catalogue with **18 Illustrations** showing different positions, with descriptive price list.

FRINK'S RUPTURE REMEDY

**The Only Quick, Safe and Permanent
CURE FOR HERNIA or RUPTURE.**

In Use for More than Twenty Years.

Many Persons Cured Every Year.

Trusses Abandoned.

No Recurrences of Hernia.

THIS Great Remedy is in the form of a healing and strengthening ointment which invigorates the weakened, flabby membranes and muscles, stimulating natural secretions and causing healthy granulation, thereby contracting the hernial aperture and making the abdominal wall normally sound and solid. It is generally used in connection with a truss, because most persons can more conveniently wear some kind of truss or supporter for a few weeks while the cure is being effected, than they can stay abed or hold the bowel in place with the hand during that time. Evils incidental to the wearing of a truss, such as induration or callousness, atrophy, chafing, etc., are counteracted by the Remedy; the pressure can be relaxed gradually as the cure progresses, and eventually the use of a truss may be entirely discontinued. Children in arms are cured by FRINK'S RUPTURE REMEDY alone, without the aid of a truss.

UNSOLICITED TESTIMONIALS

from eminent physicians and their patients—men, women and children—in all walks of life, including those who perform the hardest manual labor as well as those who live in comparative ease and luxury, substantiate the fact that FRINK'S RUPTURE REMEDY is a positive cure for inguinal, femoral, umbilical and other kinds of ruptures, at small expense, without inconvenience or injury, and without detention from business or customary avocations.

Price of Remedy sufficient to cure an ordinary case, **\$5.00**; Sample packages, containing enough to show good effect, **\$1.00**. Full directions with each package.

FRINK'S ECLECTIC TRUSSES

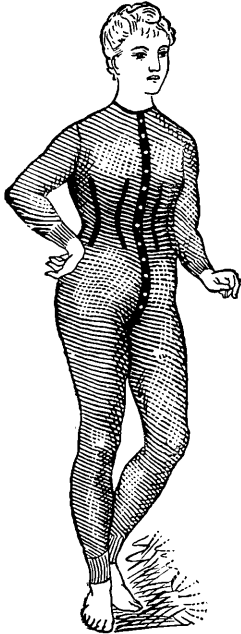

are the best in the United States. They *hold* securely and comfortably and are perfectly adjustable by the wearer at *home*. **Price, single, \$10.00; double, \$12.00**. When ordering, please state location of rupture and give measurement around the body where the truss has to go. Remedy and Trusses are sent by mail, postpaid, separately or together, on receipt of price.

O. FRINK, Sole Proprietor,

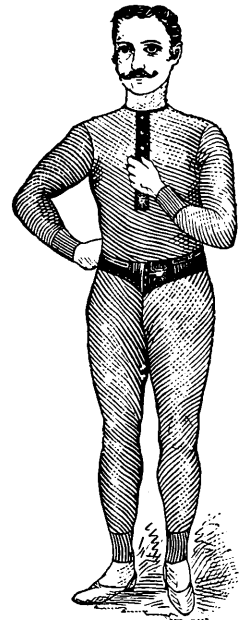

234 Broadway, - - NEW YORK.

N. B.—If you prefer to order through your Druggist, you can say to him that FRINK'S RUPTURE REMEDY is supplied to the trade by Messrs. HALL & RUCKEL, Wholesale Druggists, 216, 218 and 220 Greenwich St., New York.

C. W. PURDY, M. D., Prof. Genito-Urinary and Renal Diseases, Chicago Polyclinic, Hon. Fellow Royal College Physicians and Surgeons, Kingston, etc., etc., says, in his book "Bright's Disease and Allied Affections of the Kidneys," Chapter I., Albuminuria, pages 54-55:

THE SKIN.—" * * The most thorough protection to the skin is secured by the use of the JAROS HYGIENIC WEAR, especially during the cold and damp season. * * It will be seen that the cotton fabric secures a comparatively static condition of air next the skin, while the fleece wool combines the minimum radiation of heat from the body with the greatest attainable hygroscopic power, thus securing uniform dryness and warmth of the skin under varying conditions of atmosphere. Dr. L. L. McArthur has demonstrated before the Chicago Medical Society the superiority of the Jaros Wear over all other fabrics for the purpose of protecting the skin against rapid changes of temperature and humidity, and my own experience with it altogether bears out his deductions."

Our complete Report contains the testimonials of prominent physicians regarding the value of the JAROS HYGIENIC WEAR in the treatment of

RHEUMATISM, PULMONARY TROUBLES, KIDNEY DISEASES, Etc.

It proves that the theories and recommendations of Profs. VON PETTENKOFFER, PARKES, BUCK, KRIEGER, and others, have reached a practical accomplishment in this Wear.

Reports and Treatise (72 pages), with detailed description of the Wear, mailed on application.

MEDICAL LAWS OF OREGON.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE AND SURGERY IN THE STATE OF OREGON.

Be it enacted by the Legislative Assembly of the State of Oregon.

SECTION 1. Every person practicing medicine and surgery in any of their departments, shall possess the qualifications required by this act. If a graduate of medicine, he shall present his diploma to the board of examiners hereafter provided for, for verification as to its genuineness. If the diploma is found to be genuine, and if the person named therein be the person claiming and presenting the same, the board of examiners shall issue its certificate to that effect, signed by at least two of the members thereof, and such diploma and certificate shall be deemed conclusive as to the right of the lawful holder of the same to practice medicine in this State. If not a graduate, the person practicing medicine in this State shall present himself before said board and submit himself to such examination as the said board shall require, and if the examination be satisfactory to the examiners, the said board shall issue its certificate in accordance with the facts, and the lawful holder of such certificate shall be entitled to all the rights and privileges herein mentioned.

2 The Governor shall appoint three persons from among the most competent physicians of the State, all of whom shall have been residents of the State for seven years, and of at least five years practical experience in their profession, who shall be known as the "Board of Examiners for the State of Oregon," one of whom shall hold his office for one year, one for two years and one for three years, and each until his successor shall be appointed and qualified; and each year thereafter another commissioner shall be so appointed for three years, and

until a successor be appointed as [and] qualified. If a vacancy occur in said board another shall be appointed as aforesaid to fill the unexpired term thereof. Said board shall elect one of their number secretary. All certificates shall be signed by at least two members of said board, of whom two shall constitute a quorum to do business, and shall have power to make by-laws and all necessary regulations for the proper fulfillment of their duties under this act.

3. The State Board of Examiners shall issue certificates to all who shall furnish satisfactory proof of having received diplomas or licenses from legally chartered medical institutions in good standing, of whatever school or system of medicine; they shall prepare two forms of certificates, one for persons in possession of diplomas or licenses, the other for candidates examined by the board; they shall furnish to the county clerks of the several counties a list of all persons receiving certificates; *provided*, that nothing in this act shall authorize the Board of Examiners to make any discrimination against the holders of genuine licenses or diplomas under any school or system of medicine.

4. Said State Board of Examiners shall examine diplomas as to their genuineness, and if the diplomas shall be found genuine as represented, the secretary of the State Board of Examiners shall receive a fee of one dollar from each graduate or licentiate, and no further charge shall be made to such applicants; but if it be found to be fraudulent, or not lawfully owned by the possessor, the board shall be entitled to charge and collect twenty dollars of the applicant presenting such diploma. The verification of the diploma shall consist in the affidavit of the holder and applicant that he is the lawful possessor of the same, and that he is the person therein named. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and official seal of such officer if he have a seal. Graduates may present their diplomas and affidavits as provided in this Act by letter or by proxy, and the State Board of Examiners shall issue a certificate as though the owner of the diploma was present.

5. All examinations of persons not graduates or licentiates, shall be made directly by the board, and the certificates given by the board shall authorize the possessor to practice medicine and surgery in the State of Oregon.

6. Every person holding a certificate from the State Board of Examiners shall have it recorded in the office of the county clerk of the county in which he resides, and the record shall be endorsed thereon. Any person removing to another county to practice medicine and surgery shall procure an endorsement to that effect on the certificate from the clerk of the county court, and shall have the certificate recorded in the office of the clerk of the county to which he removes, and the holder of the certificate shall pay to said clerk of said county the usual fees for making the record.

7. The county clerk shall keep, in a book provided for the purpose, a complete list of the certificates recorded by him, with the date of the issue. If the certificate be based on a diploma or license, he shall record the name of the medical institution conferring it, and the date when conferred. The register of the county clerk shall be open to public inspection during business hours.

8. Examinations may be made in whole or in part, in writing, and shall be of an elementary and practical character, but sufficiently strict to test the qualifications of the candidate as a practitioner, and for each and every one so examined they shall receive the sum of three dollars.

9. The Board of Examiners may refuse certificates to individuals guilty of unprofessional or dishonorable conduct, and they may revoke certificates for like causes, after giving the accused an opportunity to be heard in his defense before the board.

10. Any person shall be regarded as practicing medicine, within the meaning of this Act, who shall profess, publicly, to be a physician, and prescribe for the sick, or who shall append to his name the letters “M. D. ;” but nothing in this Act shall be construed to prohibit students from prescribing under the supervision of a preceptor, or to prohibit gratuitous services in case of emergency; and this Act shall not apply to commissioned surgeons of the United States army, navy and marine hospital service.

11. Any itinerant vender of any drug, nostrum, ointment or appliance of any kind intended for the treatment of diseases or injury, or who shall by writing, printing or any other method publicly profess to cure or treat diseases, injuries or deformities by any drug, or nostrum, shall pay to the State a license of one hundred dollars per month, to be collected as provided by law, as all other licenses are now collected, and any person violating the provisions of this section shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine not to exceed five hundred dollars (\$500), or by imprisonment in the county jail not to exceed six months, or by both such fine and imprisonment.

12. Any person practicing medicine or surgery in this State without complying with the provisions of this act shall be deemed guilty of a misdemeanor, and be punished by a fine of not less than fifty dollars, nor more than five hundred dollars, or by imprisonment in the county jail for a period of not less than thirty days, nor more than three hundred and sixty-five days, or by both such fine and imprisonment, for each and every offense; and any person filing or attempting to file as his own the diploma or certificate of another, or a forged affidavit or identification, shall be guilty of a felony, and upon conviction thereof shall be subject to such fine and imprisonment as are made and provided by the statutes of this State for the crime of forgery in the second degree, but the penalties shall not be enforced until a period of six months after the passage of this bill.

13. The provisions of this act shall not apply to those who are now practicing medicine or surgery within the State of Oregon; *provided*, they shall, within sixty days after the passage and approval of this act, cause their names and places of residence to be registered in the office of the county clerk of the county in which they reside, in a registry book there to be kept by said clerk, and to be named a registry book of practicing physicians and surgeons.

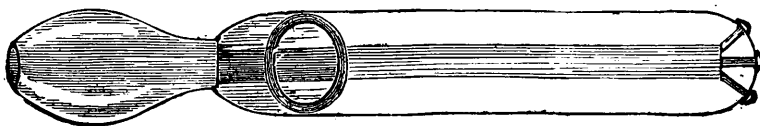

14. Inasmuch as there is urgent need for the protection to be provided by this act, the same shall take effect and be in force from and after its approval by the Governor.

Oakwood Springs Sanitarium.

Lake Geneva, - Wis.

THE SANITARIUM is in the midst of a region, 20 by 30 miles in extent, having the smallest death rate of any such area in the United States.

The grounds consist of a beautifully wooded park of sixty-three acres overlooking Lake Geneva and the city, and commanding the most delightful and extensive views. It is, in its highest point, more than fifty feet above the lake, and presents a charmingly undulating surface, covered, in its entire area, by great oaks and magnificent forest trees.

This Sanitarium is conducted exclusively for the treatment of diseases of the **Brain and Nervous System.**
